VOLUME 28, NO. 1

WEST LIBERTY, MORGAN COUNTY, KENTUCKY, THURSDAY, AUGUST 5, 1937

WHOLE NUMBER 1399

DELINQUENT STORE LICENSES

Frankfort, Ky., Aug. 2.—James W. Martin, commissioner of revenue, announced today that approximately 9,000 taxpayers have not obtained their store licenses for the 1937-1938 fiscal year. This license tax became delinquent after July 1, 1937. The statute provides a 20 percent penalty and 6 percent interest for failure to file application and pay the tax before the due date and in addition provides a fine of not less than \$25 nor more than \$1,000 for persons convicted of operating their place of business without the proper license.

Commissioner Martin indicated that the 9,000 delinquent merchants who secured their licenses last year had been amply notified that the tax was due, and said that the department would soon start prosecuting all persons failing to comply with the provisions of the store license tax act. He urged merchants to forward their applications and proper remittances to the department of revenue, Frankfort, Ky., at once.

Let's win! Vote for Ben F. Kennard.

Circuit court will convene here on Monday.

Tobacco is called a weed, but is really a very valuable farm crop.

Mrs. G. W. Leslie of Cannel City was a business visitor here Monday.

The X mark on your ballot Saturday is the final campaign argument.

It will pay to take a little time off and save your valuable fruit trees that are overloaded by picking off some of the fruit.

Mr. and Mrs. Drexel Smith of Seymour, Ill., came in Sunday to visit Mrs. Smith's parents, Mr. and Mrs. Bascom Elam, of Liberty Road, and her grandfather, James W. Elam, of Greer, and Mr. Smith's grandmother, Mrs. Susie Smith, of Twenty-six. They expect to be in the county until about August 15.

WANT TO BUY

1 Old-fashioned Dropcap 6-leg type Table.

1 Old Corner Cupboard.

1 Old Poster Bed, either of Cherry or Walnut wood.

Will pay \$5 to \$15, depending on condition.

Write me of any old furniture you have to sell.

H. H. LAMB

464 Wash ave., Huntington, W. Va.

Beauty Hints

By Jane Heath

How can I swim in the afternoon and still keep my hair groomed for dinner?

This is the great summer beauty problem of thousands of American girls who lead active, outdoor lives all day yet insist on looking coiffed and smartly dressed in the evening.

And here's the answer—a new and practical idea.

Make swimming an asset instead of a liability to your hair. Use the time—and the bathing cap—to give yourself a fresh curl with "wavers" made just for this purpose. These little, green rubber curlers now come in a new midsize which will tuck trimly under a rubber cap to hold your wave while you swim. Only their small size and softness make possible this new beauty secret.

To keep the hair neat at the back of the neck, insert ends of the hair in the slit. Roll up on the wavers as high as possible, to keep hair out of the water. Fold the rubber ends underneath and button them together out of sight under the hair as shown in the sketch. Then, if water does seep through in spite of all efforts, the rolls are so neatly wound that the bathing cap can be removed without embarrassment. The hair will dry quickly in its original "set," in about the time it takes to drive home from the beach. And now, refreshed from your swim, with the evening before you, remove the wavers, and find rows of soft ringlets ready to go places with your most glamorous dance frock.

COX FOR MAGISTRATE

To the voters of magisterial district 2: I take this method of announcing myself for magistrate, and I wish to state my position on a few of the many things that come before the fiscal court.

First, I favor a strict system of economy so as to be able at all times to pay each and every claim presented for payment.

I favor an equal distribution of the county funds to the rural sections of the county so the people may get the benefits in the way of good roads and bridges.

As a magistrate I will use my influence to have the fiscal court take advantage of the aid offered by the national and state governments and thus make work for our people and secure much needed public improvements.

If elected I promise to visit every section of my district and see that all sections have the best of service in the way of bridges and roads, and will do all for them a magistrate can do.

I favor a strict enforcement of the law so as to protect churches, schools, and homes, and all public gatherings. Money spent on roads and bridges which will enable the country people to get to and use the main highways is money well spent.

On this I most earnestly beg your support. If elected I will be a servant of the people and not of any one man or set of men. I know what it is to live away from things. I want to help you all.

Your influence and support solicited. (Adv.) GREEN B. COX

A FINE TRIP

Mr. and Mrs. Claude Shouse and little daughter Mary Edith and Mrs. Shouse's sister, Miss Anna Ruth Lykins, returned Sunday from a trip that lasted about 18 days.

They first went to Mr. and Mrs. Shouse's home in Wheeling, W. Va. From there they went to Niagara Falls. Round Top, in the Catskill mountains, N. Y., came next. Here they visited Mr. Shouse's grandfather, made a tour of the Catskill mountains and saw the famous Mountain House view, where they could see four states, New York, Connecticut, New Hampshire, and Vermont.

They went down the Hudson river to New York City. They saw the Riverside Drive church, built and supported by Rockefeller. They went to Radio City, where they visited the music hall and saw the dancers. Rocketts, who represented the United States in the Paris exhibition this summer. They took a boat trip to see the Statue of Liberty. While in New York they tried all methods of travel, including the elevated, subway, and Fifth avenue bus.

From New York City they went to Philadelphia. Here they went into the U. S. mint and Constitution Hall, where they saw the Liberty Bell.

Our national capital came next. At Mr. and Mrs. Shouse had been there before, they put Anna Ruth on an excursion bus. She saw so many things she can't tell about them all. While in Washington they visited Mr. Shouse's brother, John Shouse, and wife, who is a sister to Mrs. Yandal Wrather of this place.

They came up the Shenandoah valley and on to Knoxville, Tenn. Skyline Drive, south of Washington, was well worth the few extra miles it required, and should not be missed by anyone traveling in that part of the country. In Knoxville they visited a few days with another brother of Mr. Shouse, Francis Shouse.

From Knoxville, Tenn., to Danville, Ky., where they visited a week with Mr. Shouse's parents.

Mr. and Mrs. Shouse are with Mrs. Shouse's mother, Mrs. J. D. Lykins, here, this week, and expect to leave next Tuesday for their home in Wheeling, W. Va.

IN REMEMBRANCE

In loving remembrance of my dear husband, and my dear father, Stanley May, who passed away one year ago today.

In our home he is fondly remembered, And we weep and miss his presence, And our hearts are filled with pain; But we know he feasts on heavenly manna,

And our loss was heaven's gain. But sweet memories will always cling to his name,

For we loved him in life so sincerely We love him in death just the same. —His wife and little son, Mrs. Mildred May and Scottie.

C. C. MAY

ANNOUNCES PLATFORM

To the Democratic voters of Morgan county:

Here are some of the things I will try to do if you will elect me to represent Morgan county in the next session of the legislature:

I have always worked for the public school system. I believe the state per capita allowance should be raised to \$15. I hope also to be able to secure funds and a law to furnish free textbooks to all grade and high school pupils in our state.

The state primary highway system should now take over and maintain the various WPA roads. The state contribution to counties for rural roads should be continued and the free labor road law should be repealed. All highways in the state primary road system should be hard surfaced as soon as possible after being built.

I favor raising the old age pension in our state to the limit which the federal government will match, up to a total of \$45 a month, and including among those eligible widows of any age, the physically handicapped, and the blind.

The federal government realizes the importance of a local health unit, and is very liberal in its offer of help

to maintain such a unit in each county. I believe the legislature should make it possible for each county to have this health protection. I will oppose a \$2 poll tax for women.

I will favor a liberal state appropriation for relief. Fish and game in our state are supervised by one department of government and there is no good reason why there should be a separate license required for each one. One license should be enough for both. Persons fishing with a hook and line should be allowed to fish without license.

One dog tax-free should be allowed to every family, and I will endeavor to have the dog law changed to allow this.

I favor amending the automobile operators' license law to do away with the yearly license, making an operator's license permanent unless revoked for cause.

I am interested very much in the same things you are, and will be glad to confer with anyone any time. I stand for what I believe to be the best interests of Morgan county and Kentucky. Your vote and active support will enable me to serve you. (Adv.) C. C. MAY

WEST LIBERTY STILL GOING

The West Liberty ball team is still wading thru all opposition in the Kentucky Valley League. Sunday they met the rejuvenated team from Bowen and beat them 5-2.

After trailing most of the way, Bowen drew first blood in first and another run in the third and held a two run lead until the seventh, when Brown, who had replaced Davis in right field, was hit by a pitched ball, then Carl Elam stepped up and slapped a mighty triple to left for the first West Liberty run. Then in the eighth the boys really went after the game by hammering four runs across before the rally was squashed there by salvaging the game to keep their slate clean for the season.

Next Sunday the boys go to Beattyville to pit their record and prowess against the strong Beattyville team, which holds the first half championship. The boys are playing a class of ball you will be pleased to see. So desert the slacker class and come out and watch the team play at their next home game, which will be played here Aug. 15 against Jackson, and give the boys financial as well as moral support.

NOTICE

To certified WPA and NYA workers who are awaiting reassignment:

It will be necessary under the new social security act for all unassigned WPA employees to have social security account numbers before being eligible to be reassigned to WPA employment.

Information on how to secure such numbers may be had at my office. It is not necessary for those, however, who have been continuously employed on WPA to apply.

HOBERT B. ARNETT,
Morgan Co. Referral Agent

FAMILY REUNION

A family reunion was held at the home of Mr. and Mrs. David Davis of Bascom on Sunday, Aug. 1.

Children present were Mr. and Mrs. J. F. Redwine, Morehead; Mr. and Mrs. A. B. Blair, West Liberty; J. B. Davis, Mr. and Mrs. L. A. Davis, and Mr. and Mrs. E. A. Davis, Ashland; Mr. and Mrs. C. L. Davis, Mr. and Mrs. David Davis Jr., and Miss Guthrie Davis, Sandy Hook.

Grandchildren present were Eloise and Orville Redwine, Billy, Johnny, and Pauline Faye Blair, Muriel, Donald, Emory Ernest, Roger, and Etta Ruth Davis.

Other relatives and friends present were Mr. and Mrs. Chas. Thompson and family, Paul, Lucy, Mary, Charles, and Thomas, Mrs. Hurst, and Mr. and Mrs. Oney Darosett and daughter Nancy, of Sharpsburg, and Mrs. Louisa McClain of West Liberty.

A plentiful dinner was served and a wonderful time was enjoyed by all.

Phooey!

A hitch-hiking tramp found his way into the city jail at Barbourville. He was disturbed in the small hours of the night by a strange bedfellow who kept tugging at his heavy crop of unkempt hair. The next morning the occupant of the cell complained to the jailer and asked if he knew what kind of an animal it was that had stuck to him so closely during the night. Upon investigating, the jailer found it was the fire department's pet skunk.

Legion Meeting Moved Up

On account of the primary election falling on our regular meeting day for August, the American Legion meeting for that month will be held on the second Saturday, August 14. H. R. STACY, Commander

PRIMARY ELECTION OFFICERS

Following is a list of the election officers chosen for service at the primary election on Saturday, Aug. 7. In each precinct the first named is the sheriff, the second is clerk, and the last two are judges.

West Liberty, ward 1, Pomp Adams, James Franklin, Ollie Blair, J. R. Day.

West Liberty, ward 2, Charley Perry, Ova Black, A. P. Gullett, John W. Elliott.

West Liberty, ward 3, Willard Lewis, H. B. McClure, Frank L. Lewis, D. B. Allen.

West Liberty, ward 4, Willie W. Elam, L. B. Reed, Charlie Cottle, J. H. Short.

Lacy Creek, 5, Elbert Nickell, Manfred France, Walter Easterling, Isaac Hopkins.

Lenox, 6, H. L. Day, Cecil Day, Winfred Williams, B. A. Williams.

Dump, 7, Boon Williams, Arlie Williams, Alice Montgomery, C. C. Smith, Crockett, 8, Andy Skaggs, Arnold Wheeler, Merida Conley, Frank Hutchinson.

Paint, 9, Dewey E. Brown, P. H. Ferguson, Wallie F. Felfrey, Wayne Hill.

Pendleton, 10, John W. Smith, Amos Cantrill, Sam Patrick, John Deolin.

Malone, 11, Joseph B. Stacy, C. L. Havens, Amos M. Adams, Herman Barker.

White Oak, 12, Ben Allen, Paul Lacy, John Lacy, Kelly B. Whitt.

Caney, 13, Marvin Dunn, Roy Benton, John F. Adams, Dillard Oney.

Stacy, 14, Preston Lacy, Bev Lewis, M. G. Dunnigan, Renny Stacy.

Cannel City, 15, Tom Davis, Alex Spencer, Arthur Briscoe, J. D. Whiteaker.

Adele, 16, R. O. Prater, H. H. Lacy, Arbie Prater, Hiram Davis.

Flat Woods, 17, Curtis Adams, Lester Reed, Austin Kemplin, Orville Henry Jr.

Yocum, 18, A. L. DeHaven, J. F. Lewis, Walter Cox, J. E. Dennis.

Blaze, 19, M. H. Bishop, Kennel Howard, Wavelin Lewis, H. Collins.

Blairs Mills, 20, Walter Collins, David Easterling, Edgar Holbrook, Frank Miles.

Wrigley, 21, David Lewis, M. B. Whitt, O. M. DeHart, Roe Barker.

Toms Branch, 22, Rollie Leach, R. E. Brooks, B. M. Wells, Edward Vest.

Ezel, 23, L. G. Murphy, A. T. Henry, Euel Picklesimer, R. L. Motley.

Murphy, 24, Ezra Bach, A. J. Combs, J. W. Bolin, J. G. Havens.

Chapel, 25, Virgil Nickell, H. W. McClure, C. N. Kemplin, C. F. Cecil.

Stamper, 26, Noah P. Greear, Ova Amyx, Estill C. Gevedon, H. Cundiff.

Salem, 27, Mort Walter, Dewey Steele, Charley Nickell, H. D. Gevedon.

Cox, 28, L. T. Mullins, Dewey Steele, John Couch, D. K. Ferguson.

Here from Kansas

Mr. and Mrs. Roy McClain and three youngest children, Mazie, Henrietta, and Barbara, of Rossville, Kansas, arrived in town Saturday. They stopped to see Mr. McClain's aunt, Mrs. Ollie McClain. As this was the first time he had been here in 19 years, it took her a while to realize who he was. They will visit friends and relatives thruout the county for about a month before returning to their home. Ulysses Trimble and Doan Caskey, of this county, who had been visiting in Kansas, came with them.

Here from Ohio

Ansel Fugett and Miss Lillian Fugett, of Foster, Ohio, and Kenneth Wells of Middletown, Ohio, came in Sunday. They started back yesterday, taking with them Mr. Fugett's mother and sister, Mrs. Joe Fugett and daughter Janice, who had been visiting here for two weeks. Mr. Wells' mother and sister, Mrs. Claud Wells and daughter Lorene, also accompanied them and will visit them and Miss Elizabeth Wells, of Middletown, Ohio.

Visit in Floyd County

Mrs. Walter Davis and Will and Buford Wells went to Floyd county Sunday to see their brother, Ned Wells, who had a foot badly mashed when a telephone pole which he had climbed fell over with him. Ned Wells lives at Langley and will be laid up for some time.

REWARD FOR RETURN

LOST: A ladies' hand purse, large, white, patent leather, with zipper and hand strap, containing some money. Liberal reward will be paid for return to MRS. R. F. NICKELL, West Liberty, Ky. (Adv.)

EXPLAINS VOTE LAW

Replying to a letter from the county court clerk of Harrison county, the assistant attorney general wrote as follows:

Your letter of the 12th to Attorney General Meredith has been referred to me, in which you inquire of the right of certain persons registered as Republicans in the last general election to change their party affiliations and vote in the Democratic primary.

We have given an opinion heretofore, to which we still adhere, that this is not permissible under the law; that those voters are illegal voters in the Democratic primary and are amenable to the penalties set out in same, as well as the election officers who permit them to vote. We are enclosing you a copy of this opinion.

When these voters change their party affiliation, you should note the date and the election officers should not permit them to vote in a Democratic primary; and if you have only a Democratic primary, you should not certify those on the list of registered Democratic voters for that primary.

In regard to your other question as to changing residence, and whether that permits a change of party affiliation where the voter also changes his party affiliation at the same time, we are of the opinion that these Republicans are not entitled to vote in a Democratic primary. There is no difference because they move from one precinct to another. They are registered Republicans at the last general election and could participate in the Republican primary, but not in a Democratic primary. You should on the card where they transferred make the notation that their affiliation was as originally registered but changed on the date that they changed their voting precinct, so that the election officers can see this and refuse to permit them to vote, if there is only a Democratic primary, as eligible Democratic voters.

Yours very truly,

GUY H. HERDMAN,
Assistant Attorney General

SEWING PROJECT DISPLAY

The WPA sewing project had a display in the drug store window Saturday of things they had designed, cut, and sewed.

Displayed were a man's tailored suit, buttons of bias tape, buckle and buttons of covered inertubing, appliqued luncheon set, pot holders, and curtains, all to match, ladies' tailored suit, shell hemmed ruffles, pillow cases with hairpin lace and monogram, dainty collar and cuff sets, children's sun suits, child's hat, coat, and pocketbook, all to match, bathing suit made of a lovely print, basket of broom sage and pine cones. They had also dyed some material to use.

As this display was limited to the things the women themselves had designed, the articles they made the most of, such as overalls and house dresses, were not included.

All the women, and the forewoman in particular, are to be congratulated and encouraged in the splendid work they are doing.

Eventful Sunday Dinner

Mr. and Mrs. Willie Caskey of Decatur, Ill., came in here last week for a short visit with friends and relatives. Mr. Caskey started out to find his mother's place just a few miles out of town, but because the road had been relocated he almost got lost before he finally figured things out. Another brother, Walter Caskey, and daughter Eunice, of Des Moines, Iowa, are also here to spend about a week. On Sunday they brought their mother, Aunt Martha Caskey, down and all of them had a happy dinner at the spacious home of Mr. and Mrs. T. H. Caskey. It was a day which they all enjoyed and will long remember.

Rev. and Mrs. Oliver Wilson of Middletown, Ohio, who are holding a meeting at Blaze, spent Monday with Mrs. Wilson's sister, Mrs. Ollie Blair.

BAPTIST CHURCH

Prayer meeting and song service at 7 o'clock every Thursday night.

Sunday school at 10 o'clock a.m. Church services immediately after Sunday school and also at 7 p.m. every Sunday.

Lord's Supper the first Sunday night in each month.

Everybody is invited to attend these services, "Not forsaking the assembling of yourselves together." ROSCO BRONG, Pastor

© Western Newspaper Union

'Aw, Let's Go Home!'

WITH Supreme court bill recommended to the senate judiciary committee, a new substitute bill for reform of only the lower courts due to be reported out of the committee, and a new senate majority leader selected to take the late Senator Robinson's place, the overwhelming sentiment of the members of the seventy-fifth congress was to pack up their bags and get as far away from Washington as possible.

Even measures which President Roosevelt had insisted bear the "must" label were being shoved aside with dispatch, as Vice President Garner sought to heal the party wounds inflicted during the bitter court battle and salvage as much of the President's legislation as he could. The first to be buried was the new AAA and "ever-normal granary" bill; the senate agriculture committee shelved it until the next session. The committee authorized James P. Pope, Idaho Democrat and co-sponsor of the bill, to prepare a senate resolution to lay the plans for regional hearings on a comprehensive farm program during the remainder of the summer and report back in January.

It seemed certain that the President's legislation for governmental reorganization would be left over until next session when the record of three months' hearings by the joint congressional committee was made public. It was revealed that committee members have not even come close to agreement on any of the main points involved.

Majority Leader Barkley said that the White House still wanted the wages and hours bill, the Wagner low-cost housing bill and a judiciary bill passed, as well as legislation to plug tax loopholes. The Wagner bill, meanwhile, was reported out of committee, and it was expected the senate would act upon it quickly. It would set up a federal housing authority with power to issue \$700,000,000 in bonds over three years to make loans for "low-cost" housing construction.

'Glory Be to God!'

DYING for weeks, the scheme to add to the number of justices of the Supreme court finally choked its last gasp and left this world. On a roll-call vote the United States senate voted to recommit the Robinson substitute for the President's original bill to the judiciary committee. The vote was 70 to 20, the most crushing defeat the President's legislation has yet suffered at the hands of a house of congress.

In an agreement made at a session of the judiciary committee earlier, it had been decided to let the opposition senators write their own bill, an innocuous measure for "judicial reform" not dealing in any way with the Supreme court. Senator Barkley, the new majority leader, attempted to save the President's face by having the bill left on the calendar, but he never had a chance. When the roll-call came, seven Senators Ashurst of Arizona and Minton of Indiana, two of the Supreme court bill's chief supporters, voted to recommit.

"Glory be to God!" said Sen. Hiram Johnson (Rep., Calif.) when the results of the roll call were made known. The applause that belled forth from the senators and gallery alike left no doubt that the veteran from California had voiced the sentiments of the great majority.

Madrid's Moat of Blood

THE Spanish government was defeating Madrid against the insurgent forces in the most terrible battle of the entire civil war and the most important. It couldn't last; it was too furious. The whole loyalist cause apparently rested on resisting this, the most vicious attack the rebels had yet made. Gen. Francisco Franco's army, under his

personal supervision, was making advances, but at such loss of men that the cost might be too great. Insurgents stormed loyalist entrenchments directly in the face of point blank machine guns. Losses were so terrible that thousands of wounded thousands already dead and decaying in the hot sun. Infantry, tanks, cavalry and artillery were supplemented by airplane bombers.

In one salient 250,000 men were fighting, including the cream of both armies. The loyalist position was admittedly the most serious of the whole war, and upon the government's ability to withhold against the attack rested the fate of the best units in its army. It was reported that 20,000 Italian troops had joined the rebels for the battle. While the Madrid conflict was in full swing, the insurgents sprang a surprise air attack on Barcelona. In the early dawn advance planes dropped flares which lighted up the city. Then came additional planes, dropping bombs on the city target and turning machine guns on citizens who attempted to flee. At least 65 persons were killed and 150 injured.

Is This the Beginning?

AS JAPAN brought airplanes into action for the first time since the new Sino-Japanese crisis developed, and threw all available strength into a campaign against the Chinese Twenty-ninth army in North China, it was feared that the expected long Japanese military offensive had begun. While it was difficult to assimilate many conflicting and confusing reports, there was good ground for the belief that all attempts at a truce had failed, for a while at least.

The Japanese airmen rained bombs upon Chinese military barracks around Peiping, and pressed infantry and artillery attacks along the Peiping-Tientsin railway and the highway to the sea. Entrance of 200 Japanese marines into the Chinese Chapei district of Shanghai sent 20,000 men, women and children fleeing into the international settlement in search of protection. It was rumored a Chinese mob had killed a Japanese sailor, provoking Japanese reprisals.

Meanwhile the threat of real war continued to hover as the Chinese army refused to leave positions in and near Peiping, in what Japan considered violation of the Tientsin peace agreement.

Barkley, 38; Harrison, 37

SEN. WILLIAM H. DIETERICH of Illinois changed his mind at the last minute and today Alben W. Barkley, hard-fisted, blustering senator from Kentucky, is the majority leader of the United States senate, succeeding the late Joseph T. Robinson of Arkansas. The vote was 38 for Barkley to 37 for Sen. Pat Harrison of Mississippi.

The conservative Democrats in the senate had been assured of 38 votes, enough to elect Harrison, on the eve of the secret election. But that night Dieterich, apparently under pressure from the Democratic party organization in Illinois, begged Harrison to release his pledged vote, in order that the President's personal choice might head the party in the senate.

The slim victory by no means patched the obvious party rift. Even the administration admitted that the President's Supreme court bill was virtually dead even then. Vice President Garner visited Sen. Burton K. Wheeler of Montana, leader of the opposition forces, and invited the opposition to write its own bill.

40 Hurt in Strike Riot

ALTHOUGH the independent steel plants were back at work, there was still plenty of discord along the labor front. Forty persons were injured in a wild riot among pickets of the Steel Workers' Organizing committee (affiliated with C. I. O.), loyal workers and police at the Corrigan-McKinney plant of the Republic Steel corporation in Cleveland.

A mob of strikers hurled rocks from a hillside upon cars of employees parked in the valley about the plant. Loyal workers attempted to drive the strikers away, and at one time 500 of them rushed out of the plant and set upon the picketing, trying to break up the fighting, only to be met by their tear gas guns. One striker was killed when a moving automobile, which was being stoned, got out of control and ran berserk through a picket line.

In Buffalo there was a serious food strike because of a strike of 1,000 wholesale grocery truck drivers and 1,000 butchers at four meat packing plants. As C. I. O. and A. F. of L. unionists co-operated in their demand for closed shops, residents of the city were forced to motor to the country for butter, eggs and vegetables.

'Joe' Robinson's Successor

THE Democratic senate committee of Arkansas nominated Gov. Carl E. Bailey to be the late Joseph T. Robinson's successor as United States senator. He is forty-two years old.

Traditionally, having been nominated by the state committee, Bailey is "as good as" elected. He may be opposed in the elections which he will call himself, September 14, by a Republican or by other Democrats running as independents. Rosser Venable, who opposed Robinson in the 1936 primary, had indicated that if Bailey were nominated he would run in opposition. The state Republican committee was reported seeking an opponent for the governor.

Low Interest for Farmers

BY A vote of 71 to 19, the senate overrode the President's veto of a bill extending for a year low interest rates on loans to farmers. It was a defeat even more crushing than the recommitment of the court bill, and made the bill a law without the President's signature, for the house had previously passed it by a two-thirds majority over Mr. Roosevelt's veto.

Senator Barkley made a half-hearted attempt to stave off the overwhelming vote, and the defeat was accepted by many observers as an expression of resentment over Barkley's having been elected majority leader instead of Sen. Pat Harrison of Mississippi.

A Year of Reclamation

APPLICATIONS for grants under last year's agricultural conservation program covered 283,000 acres—two-thirds of the country's crop land—and represented an estimated 4,000,000 farmers, H. R. Tolley, agricultural adjustment administrator, reported. Nearly 31,000,000 acres were diverted from crops which deplete the soil; 53,000,000 acres were devoted to the benefit of soil-building practices.

Conservation payments for the year totaled \$32,323,303.11, benefit and rental payments \$235,744,264.42. Total expenditures by AAA during 1936 were \$357,338,617.30, including administering expenditures and liquidating obligations outstanding when the Supreme court held sections of the original AAA unconstitutional.

De Valera Is Re-elected

IF HIS party, Fianna Fail, can keep in power that long, Eamon de Valera will be president of the executive council of the Irish Free State for another five years. He was elected to the nation's highest office by a vote of 82 to 52 in the dail eireann (parliament). De Valera, in favor of severing all ties with Great Britain, won even the vote of the labor group, which does not endorse his party.

It was believed that De Valera would go ahead with legislation necessary to implement the new constitution approved in the plebiscite of July 1. He would in that case set up a senate and elect a president by popular vote, as the constitution provides. If De Valera is elected president, to serve seven years, political experts say he will virtually disappear from politics and his party will break up.

Football Couldn't Save It

NOT even the excellence and popularity of Edward Patrick (Slip) Madigan's football team could save little St. Mary's college at Oakland, Calif., from the auction block. It was "knocked down" to its security holders for \$411,150—the only bid after it had failed to pay interest on its bonded indebtedness of \$1,370,500 since 1934. When Madigan came to St. Mary's from Notre Dame in 1921 it had 71 students. His football teams made it famous and built the enrollment up to 700. It was indicated he will remain as coach, at a reported salary of \$7,000 a year and ten per cent of the gate receipts. Receipts last year were \$174,671.

SEEN and HEARD around the NATIONAL CAPITAL

By Carter Field
FAMOUS WASHINGTON CORRESPONDENT

Washington.—Most significant in connection with Gov. Herbert H. Lehman's attack on President Roosevelt's Supreme court enlargement bill was the fact that the President has turned, one by one, against so many of his former close advisers and lieutenants.

The recent fight for leadership of the senate Democrats, to fill the place made vacant by the death of Senator Joseph T. Robinson, demonstrated this in a striking way. For all the four years of his first administration Roosevelt's closest confidant among senators was very generally regarded as Senator James F. Byrnes of South Carolina.

In fact, if Senator Robinson had died a year ago there would have been little doubt on Capitol Hill that selection of Senator Byrnes as leader would be the thing the White House wanted.

Actually Senator Byrnes discovered, shortly after the recent battle began, that all the White House wires were being pulled for Senator Alben W. Barkley of Kentucky. Senator Byrnes found he had no chance at all. He was caught between two millstones. So he retired from the race, and Barkley was chosen.

The most effective supporter the President has had on Capitol Hill has been the very non-talkative Vice President, John Nance Garner. The Vice President was really ousted as one of the President's advisers issue—so he became very vociferous in the privacy of the President's office, insisting that the government should take a strong stand on the sit-down strikes. Senator Byrnes lost his popularity at 1600 Pennsylvania avenue for the same reason.

Favored Barkley

Neither Garner nor Byrnes had ever liked the court bill, but they were following the President on it, just as Joe Robinson and Pat Harrison were.

But the President knew their hearts were not with him on this issue. That is why he was so anxious to get Barkley for leader, instead of Harrison. He has always known he could depend on Barkley. Back in 1932 he was so anxious to get Barkley for temporary chairman of the national Democratic convention that he let Joe T. Robinson be permanent chairman if Shouse and his friends would not oppose Barkley for temporary chairman.

This agreement was made with Robert Jackson, then secretary of the Democratic national committee (the New Hampshire Jackson, not the Robert H. Jackson of New York who is now assistant attorney general). Listening in on an extension telephone was Harry F. Byrd, now a senator from Virginia.

The importance of a vigorous temporary chairman at a political national convention is extraordinary in any close contest. On him depends the job of overseeing the selection of the permanent list of delegates! Senators Sherman Minton of Indiana and Lewis B. Schwellenbach of Washington were called in with Senator Barkley and Senator Key Pittman of Nevada after the death of Robinson. This gave a clue to the present situation. They are among the most radical men in the upper house.

Wages and Hours Bill

The average senator and representative, in trying to figure out just what he should do to play safe on the bill regulating wages and hours, is like a golfer about to drive. He must remember to get his stance right for direction, his grip as he pro told him to keep it, also to keep his left arm straight, just which part of his anatomy to move first in pivoting, and above all to keep his eye on the ball.

The only trouble with this illustration is that there are no cones. The wages and hours bill there are considerably more things to remember, forgetting any one of which may prove far more disastrous than when a golfer tops, hooks, slices or whiffs.

Who could have foreseen, for instance, that freight rates would be important?

It started when some Southern congressmen, insisting that the South must have a differential to permit its employers to work their labor longer hours and pay them less than their competitors in the same line in the North, gave as one reason for the necessity of this "advantage" that the South pays higher freight rates.

It so happens that the interstate commerce commission is now digging into that question, under active prodding of certain commercial interests in the South.

Insiders predict—though predicting what the I. C. C. will do is almost as dangerous as forecasting court decisions—that there will be orders from the high court of commerce adjusting freight rates in the South. This would have the effect of depriving the Southern congressmen of one of their arguments in favor of the differential, if the decision of the I. C. C. is as predicted. But it will

not end the discussion. It may even provide an unexpected bit of trouble in annoying the security holders of some of the Southern roads. It is almost certain to bring agonized cries from the truckers who will be forced by competition to reduce their rates.

Muddled the Water

Meanwhile, of course, everybody knows that the freight rate argument was just thrown in to muddy the water—that nobody was really weighing these freight rates seriously as an argument for the differential in favor of the South on wages and hours regulation.

For of course no change in freight rates is going to change the situation with respect to the colored workers on whom the South depends for such a large proportion of its labor. The fact that a farmer may be able to send his crops to market at a little lower charge for freight is not going to make him willing to pay his workers more—not if he can get out of it. And he is going to be just as sore on his representative and senators if they vote to do that to him as if there had been no change in the freight rates whatever.

So no decision by the I. C. C. is going to modify the course of those fighting for a differential favoring the South. It is merely going to deprive those advocating the differential of a sideline argument, and deprive them of it just about the time they are tired of talking anyhow.

All of which makes it just a little clearer why so many senators and representatives would like to put this bill, and a good many others, over until next session. It may be just as ticklish then, but they would like to stop worrying now!

Very Few Left

Once there were plenty of Republicans in high public office, notably in the senate and house of representatives, who had the same general ideas about their party that Joseph T. Robinson had about his. There are mighty few, if any, left, and those who even come within striking distance of Robinson's batting average are without exception so branded as "reactionaries" and "Tories" that in presidential campaigns they are regarded by candidates and national chairmen as liabilities rather than assets.

Robinson believed that the most important thing to determine about any official act of his was whether it would help or hurt the Democratic party. Absolutely consistent on this, he never allowed any personal view or prejudice to influence him in the slightest if it seemed to him to run counter to the chances for electing a Democratic President at the next election.

The best illustration is prohibition. There may live a man who can say flatly that if Joe Robinson had not been in politics he would have been a dry, or a wet. But most of his friends around Washington and Little Rock doubt it. Robinson was never one of those politicians who make public speeches one way and talk privately the other. When Robinson embraced an issue, whatever may have been the original reason for his taking that side, he went all the way. He made speeches for it, he changed to the new position and became just as fanatical about that.

Loyal to Party

Prohibition was mentioned because it is one of the most easily demonstrated cases. Robinson was born bone dry under the party leadership of William Jennings Bryan. He became wet when the party turned in that direction at the 1928 Democratic national convention. Like many others, Robinson was convinced by the 1928 landslide that the country was overwhelmingly dry and hence that any national party to win an election must be dry.

So at a national committee meeting the following year, held at a Washington hotel, when John J. Raskob proposed a new plan opening the door to repeal, Robinson made one of the most stinging speeches ever delivered at such a gathering.

"You shall not nail the skull and crossbones of an outlawed trade to the masthead of Democracy!" he shouted.

But three years later, when the Democratic national convention went all the way wet in its platform and then nominated Franklin D. Roosevelt, who accepted the platform, Robinson became an ardent wet again!

What few Northerners and Westerners understand is the cause for this extreme party loyalty. It is sound politics in the South because since reconstruction—that success of the Democratic party is the most vital issue in the world—that everything else sinks into insignificance when compared to it.

It has been just about 45 years since there has been any comparable feeling about the Republic party.

what Irvin S. Cobb thinks about:

Western Hostilities.
SAN FRANCISCO, CALIF.—

They have mighty fine hotels in this town. I've stayed at several of them and friends of mine have been put out of some of the others.

And once I enjoyed a fire scare here when the alarm, at 3:30 a. m., brought to the lobby a swarm of moving picture actors without any makeup on and not much else. This was in the era of the silent films, but you wouldn't have dreamed it to hear the remarks of an hysterical lady star when she discovered that her chow had been for gotten. The current husband also was temporarily missing but she was comparatively calm about that. She probably figured a husband could be picked up almost any time whereas darling little Ming Foo had a long pedigree and represented quite a financial investment and anyhow was a permanent fixture in her life.

Through the strike here, the traveling public seemed to make out. Maybe visitors followed the old southern custom—stop with kinfolks. Think, though, how great would have been the suffering had the strike occurred during prohibition days when transient guests might have perished of thirst without bright uniforms to bring them first-aid packages in the handy hip-pocket sizes! Bellhops qualified as lifesavers those times.

Humans in the Raw. AS I behold vast numbers of fellow beings strolling the beaches, yes, and the public thoroughfares too, while wearing as few clothes as possible—and it seems to be possible to wear very few indeed—I don't know whether to admire them for their courage or sympathize with them in their suffering or deplore their inability to realize that they'd be easier on the eye if they'd quit trying to emulate the raw oyster—which never has been pretty to look upon and, generally speaking, is an acquired taste anyhow.

For a gentleman who ordinarily bundles himself in heavy garments clear up to his Adam's apple, this warm weather strip-act entails a lot of preliminary torture. At first our gallant exhibitionist resembles a forked stalk of celery bleached out in the cellar. Soon he is one large red blot on the landscape, with fat water blisters spangling his brow until he looks as if he were wearing a chaplet of Malaga grapes. In the next stage he peels like the wallpaper on an Ohio valley parlor after flood time.

Destructive Hired Help. SOMEBODY found a stained glass window in an English church dating back to 685 A. D., but still intact. And from the ruins of a Roman villa, they've dug out a marble figure of Apollo—the one the mineral water was named after—in a perfect state although 2,000 years old.

These discoveries are especially interesting to this family as tending to show that hired help isn't what it must have been in the ancient time. We once had a maid of the real old Viking stock who, with the best intentions on earth, broke everything she laid finger on. Moreover, she could stand flatfooted in the middle of a large room and cause treasured articles of vertu, such as souvenirs of the St. Louis World's fair and the china urn I won for superior spelling back in 1904 at the Elks' carnival, to leap to the floor and be smashed to atoms. She didn't have to touch them or even go near them. I think she did it by animal magnetism or capillary attraction or something of that nature.

The first time we saw the Winged Victory, Mrs. Cobb and I decided it must have been an ancestor of Helsa who tried to dust it—with the disastrous results familiar to all lovers of classic statuary.

The Reaping Season. CERTAIN crops may not have done so well, due to weather conditions, or, as some die-hard Republicans would probably contend, because of New Deal control. But, on the other hand, hasn't it been a splendid reaping season for sit-downs, walk-outs, shut-outs, lock-outs and picket lines?

It makes me think of the little story the late Myra Kelly used to tell of the time when she was a public school teacher on New York's East Side. She was questioning her class of primary-grade pupils, touching on the callings of their respective parents. She came to one tiny sad-eyed little girl, shabby and thin and shy.

"Rosie," she asked, "at what does your father work?" "Mein poppa he don't never work, Teacher," said Rosie. "Doesn't he do anything at all?" "Oh, yessum."

"Well, what does he do?" "He strikes."

Look Out, Playboys! Chorines Master Muskets

Tokyo.—If, as pulp-paper novels would have you believe, chorus girls are the champion "gold diggers," these dancers of the Osaka Girls' Opera troupe should be doubly dangerous. Equipped with muskets, they perform daily drills under the supervision of an army officer "to promote the spirit of organized action."

by Thornton W. Burgess

SAMMY JAY TOO EXCITED TO TALK STRAIGHT

SAMMY JAY was excited. Every one who heard him knew that, and everybody who was anywhere near heard him. They would have had to be stone deaf not to have. Sammy is just like some people—when he gets just a little excited he begins to talk in a loud voice. The more excited he gets the louder he talks. By and by, when he gets very much excited, he screams. That is what he was doing this beautiful spring morning, screaming as no one ever had heard him scream

"What's Got Into You, Sammy Jay?" Demanded Peter.

before. Indeed, he was so excited that his tongue couldn't go fast enough and tripped over his words and mixed things up so that no one could make out what he was trying to say.

He came flying out of the Green Forest, flying as fast as he could make his wings go, and screaming at the top of his lungs. He saw Jimmy Skunk coming down the Lone Little Path and flew to meet him.

"He's a stranger and he's black!" screamed Sammy.

"Who's a stranger and who's black?" asked Jimmy.

"And he's got great, big claws in his mouth!" continued Sammy. Jimmy Skunk stopped short and stared very hard at Sammy Jay.

"Say that again," said he. But just then Sammy caught sight of Peter Rabbit down by his dear Old Briar Patch. "Oh, I must tell Peter!" he screamed. "Peter! Peter Rabbit! He's there! He's bigger than Farmer Brown's boy and he walks!" And all the time he was screaming this long before he was anywhere near the Old Briar Patch.

Jimmy Skunk was still staring after him and scratching his head in a puzzled kind of way, when along came Unc' Billy Possum.

Sweet and Low

Sweet and low in a bevy of striking silhouettes, this hat has a charm all its own. It is of navy blue felt, trimmed with narrow flanges of cerise, bright blue and navy belting ribbon. The cloche brim is youthful and flattering.

Unc' Billy grinned as he looked over toward the Old Briar Patch. "Mistah Jaybird's done gone crazy," said he. "He's done gone crazy in his haid. Whoever heard of anybody with great big claws in his mouth?"

Now, Peter could make no more sense of what Sammy was saying than could Jimmy Skunk and Unc' Billy Possum.

"Who walks, Sammy Jay? Don't most people walk? What's got into you, Sammy Jay?" demanded Peter.

But Sammy couldn't keep still long enough to answer questions, and off he flew toward the Smiling Pool in search of Billy Mink and Jerry Muskrat and Grandfather Frog, and as he flew he still screamed in the same excited way, and Peter heard something about "long teeth" and "big feet," all of which was very perplexing, and, of course, made Peter very, very curious. He straightway started to hunt up Jimmy Skunk to see if Jimmy knew what it meant, and half way down the Lone Little Path he met

FIRST-AID TO AILING HOUSE

By ROGER B. WHITMAN

PROTECTION AGAINST TERMITES

I AM hearing more and more of damage to houses by termites, and from practically all sections of the country. Termites are now known to be the real cause of a destruction of wood that was formerly blamed on dry rot. It is a matter of fact that nature provides termites for the reduction of dead wood to mold. They are part of the scheme of things. They are pests only when they attack wood that mankind wants to preserve. We cannot hope to exterminate termites. Our protection against them is to build our houses in such a way that they cannot be invaded.

Termite nests are always in the ground. In attacking a house, they do not set up nests in the wood, but travel back and forth between the wood and the home nest. Considering the damage that they can do, it seems only rational to build a house in such a way and of such materials that an attack will not be possible.

Foundations should be poured concrete, reinforced with steel bars to prevent cracking. In modern house designs, the first floor is on a level with the ground—or nearly so. This brings the floor beams within easy reach of termites. These beams should therefore be of steel instead of wood. Sills, studs, sheathing and other wood parts are also exposed. For protection, these wood parts should be impregnated with any one of several chemicals that will make them termite-proof. Treated wood can be had through any lumber yard. The price will be somewhat increased, but considering the damage that is avoided, the extra cost can be regarded as insurance, and is certainly a small price to pay.

Termites are of three classes or castes. The largest caste is made up of the "workers," which do the damage. A second class, is known as "soldiers," protect the workers against the attacks of ants and other enemies. Both of these castes are white; they are blind and never come to the surface. The third class is made up of winged black "reproductives." Once a year in the spring, occasionally also in the fall, these appear in a great swarm; they flutter about for a brief time, drop their wings, and disappear. A swarm of these insects is a dangerous signal that no home owner should disregard. He should at once find out whether his house has been attacked. There will be no outward sign on the woodwork; the destruction will all be within and

can be learned only by drilling small holes, by pounding, or in some other way that will indicate hollow-ness of the timber. He may find slender tunnels of clay over the surface of masonry, these being the paths by which the termites circulate from the nest in the group. Information on how to proceed can be had from a pamphlet issued by the U. S. Department of Agriculture, Washington, D. C. The departments of agriculture of many states also have information.

The group of scientists gathered about the diabolic contraption are engaged in the smashing of the atom, to harness the tremendous power within it. The 50-foot machine uses 3,000,000 volts of electricity, and is housed in a windowless tower 135 feet high. Prof. Peter Debye is conducting the experiments in the Emperor Wilhelm

With Equal Weight

By DOUGLAS MALLOCH

NOT only Atlas bore the earth Upon his shoulders. Also we Have some small world of some small responsibility.

For others have them, each and all; Yes, problems press with equal weight

Upon the mighty and the small. Our own small world our own small way

Each on his aching shoulder They little understand it, they Concerned alone with large affairs.

Some little duty takes our time, Some little worry takes our sleep, Some little slope we have to climb, Some little family to keep.

I have my world, and you have yours, The little often larger than Some other at his ease endures, And quite forgets the little man.

The little burden may be great, The great be little, after all, At least they bear with equal weight Upon the mighty and the small.

IMPROVED UNIFORM INTERNATIONAL SUNDAY Lesson

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute of Chicago. © Western Newspaper Union.

Lesson for August 8

GOD FEEDS A PEOPLE.

LESSON TEXT—Exodus 16:1-36. GOLDEN TEXT—Every good gift and every perfect gift is from above, and cometh from the Father, James 1:17.

PRIMARY TOPIC—When God's People Were Hungry.

JUNIOR TOPIC—God Feeding His People.

INTERMEDIATE AND SENIOR TOPIC—How God Provides for Our Needs.

YOUNG PEOPLE AND ADULT TOPIC—God's Supply Adequate for a Nation's Need.

Israel, led by God, is on a journey to the promised land. But to reach their goal they must pass through the wilderness. Not only are there weary miles to travel, but there are privations to be endured. Life is like that.

"People may be strong and hopeful at the beginning of a project, and most effusively and devoutly thankful at its close, but the difficulty is to go manfully through the process. Israel was in the desert, and never were spoiled children more peevish, suspicious, and altogether ill-behaved. If they could have stepped out of Egypt into Canaan at once, probably they would have been as pious as most of us; but there was the weary interval, the inhospitable wilderness! So it is in our life. Accept it as a solemn and instructive fact that life is a process . . . more than a beginning and an ending" (Joseph Parker).

Note how elemental are man's needs in the final analysis—bread and water. The very things we take almost for granted as we concern ourselves with life's weighty interests and profound problems become, if lacking, the only things that have any real meaning. And who is it that can provide them? No one but God Himself.

I. Bread from Heaven. (Exod. 16:1-20).

Observe first of all that this was a divine provision. There are responsibilities in life which we may bear—and must bear, but in the ultimate meeting of our real needs we must look to God.

Secondly, we note that it was a daily provision. What forehanded folk many of us are, and no doubt rightly so, for God puts no premium on improvidence. But once again we must recognize, as did Israel in receiving the daily manna in the wilderness that ours is indeed a moment by moment existence. We plan bravely for the next decade or the next generation, but as a matter of fact it can only come to pass "if the Lord will." Read James 5:13-17.

Finally, it was a limited provision—enough for the day and no more, except for a double portion on the sixth day, and none at all on the Sabbath. These provisions were there for those who attempted to lay up for the morrow, and some even went out to seek manna on the Sabbath day.

We marvel at their stubborn obstinacy, but are we not often just like them. Some there are who are always expecting that the laws of both God and man should be set aside for them, but mark it well, they ultimately come to grief. The spiritual application is obvious, and most serious. God has provided a way of redemption, and has made clear how man should and must relate himself to it. Folly it is to ignore God's plan.

II. A Rock in the Wilderness. (Exod. 17:3-6).

"And the people thirsted"—for the daily manna was not enough—they must have water. Needy, yes, constantly needy are God's children. God always provides. There is a rock in the wilderness. But what pleasure does a murmuring people find in a rock when they famish for water? It is God's delightful custom to meet our needs in unexpected ways and by means which we do not understand. Even our physical necessities come from unthought of sources.

III. The Bread and the Water of Life.

Let us make certain that we do not miss the spiritual truth of our lesson which is revealed by Scripture itself. Paul speaks in I Corinthians 10:1-4 of this very incident in the experience of Israel, and says that they "did all eat the same spiritual meat and did all drink the same spiritual drink; for they drank of that spiritual Rock that followed them: and that Rock was Christ." See also John 4:14.

Hungry and thirsty soul, you who are still unsatisfied after tasting all that life apart from Christ has to offer, will you not, just now, take him who is the living bread, and come to the Rock which flows with living water?

How to Keep Quiet
Character is revealed by small things; it is also hidden by small things. Speech often hides it, and again distorts it, for those who brand themselves by the pettiness of their conversation have sometimes unsuspected depths within; but the surest revealer of character is silence—intelligent silence.

Progress
No man who feels the worth and solemnity of what is at stake will be careless as to his progress.

Crocheted Flowers for Your Bedspread

You've seen spreads before, but never one like this with its large and small crocheted flowers! And don't think you must wait an "age" before it can be yours. Crochet hook, some string, and easily crocheted individual medallions form this rich all-over design. With the "key" pattern easy to remember, the "repeats" are a

Pattern 5817

glorious pastime. Why not crochet some extra medallions and have a dresser scarf to match? In pattern 5817 you will find complete instructions for making the 9 inch medallion shown; an illustration of it and of all stitches used; material requirements.

To obtain this pattern send 15 cents in stamps or coins (coins preferred) to The Sewing Circle Household Arts Dept., 259 W. Fourteenth St., New York, N. Y.

When to Have Done

There seems to be no part of knowledge in fewer hands than that of discerning when to have done.—Swift.

POLITICAL ANNOUNCEMENTS

DEMOCRATIC PARTY

The Courier is authorized to announce the following candidates for office, subject to the action of the Democratic party in the primary election on Saturday, August 7, 1937:

FOR STATE SENATOR—DIST. 34
H. H. MILLER

FOR REPRESENTATIVE
C. C. MAY
M. C. BRADLEY

FOR COUNTY JUDGE
C. P. HENRY
JAS. W. DAVIS

FOR SHERIFF
SAM HENRY LYKINS

FOR COUNTY ATTORNEY
BEN F. KENNARD
REN F. NICKELL

FOR COUNTY COURT CLERK
LESLIE GEVEDON
JERRY G. STACY
G. I. FANNIN
EDGAR COCHRAN
MISS RESSIE ARNETT

FOR CIRCUIT COURT CLERK
MARY E. LYKINS

FOR JAILER
S. D. HAMILTON
OSCAR MCKENZIE
G. W. BLANTON

FOR MAGISTRATE — DISTRICT 1
J. N. ANDERSON

FOR MAGISTRATE — DISTRICT 2
A. C. SEXTON
W. C. BYRD
CARL RATLIFF

FOR MAGISTRATE — DISTRICT 4
LUTHER ADKINS

REPUBLICAN PARTY
FOR MAGISTRATE — DISTRICT 1
THOS. RICHARDSON

FOR MAGISTRATE — DISTRICT 3
I. R. BOWLING

FARMERS' COLUMN

THE FARM AND HOME

In planning wiring a house for electricity, lights should not be forgot for basement and attic stairways. They are not only convenient but may save injury from falls. The same is true of lights for front and back entrances to the house.

Milk and cream kept in tightly closed containers tend to develop undesirable "smothered" tastes and odors. It is better to cover with cheese cloth. Immediate cooling of milk by placing the cans in cold water is important, especially in summer.

Where wanted for hay only, Korean lespezea is usually not cut until in full bloom, which is about the middle of August in most of Kentucky. Kobe, Tennessee 76, and common lespezea are not ready until two or three weeks later.

Three years of tests at the Kentucky experiment station gave alfalfa the prize for swine grazing. Oats and rape placed second, with Korean lespezea and bluegrass about equal as third. Alfalfa grazed pigs made better gains and consumed less corn.

Topping and suckering tobacco are receiving more attention, on the theory that these practices influence the thickness of the leaf. Overgrown tobacco is often of poor quality, is easily injured, and requires more space in the barn.

In serving meals, many families follow the practical and simple method of placing the food on the

table and having each person help himself. This method is informal and tends to promote a spirit of congeniality.

Save Clover Seed

The suggestion that farmers consider saving clover seed from this year's plantings is made in a statement from the college of agriculture, university of Kentucky. In many instances clover sowed last spring did so well that it should be cut either for hay or for seed.

Since there may be a shortage of clover seed next spring, together with the fact that much of this year's crop came from native seed, it is doubly important to save seed, crops men at the college believe.

Much clover last year was damaged by dry weather, and it is considered fortunate for Kentucky farmers that this year's seedings did well in much of the state. It is said that there has been much improvement in clover growing since most farmers began using only native seed.

\$15 Profit per Ewe

Forty western ewes, purchased as lambs two years ago, returned a labor income of \$15 each this year for Virgil Williams, a farmer in Larue county, according to County Agent Frank G. Melton.

As three year olds this year, the flock produced 415 lb. of wool which sold for 40 cents a pound, a total of \$166, or more than the feed bill. Fifty-six lambs were saved, worth, on the basis of those sold, \$10 each, or \$560. Wool and lambs totaled \$726, or \$18 a head. The total feed bill, including corn, oats, alfalfa, and shredded fodder, was \$125.10.

More and Better Hay

More and better hay for Kentucky. So say county planning committees, according to a college of agriculture summary of their recommendations.

These committees, which have been at work about a year on the needs of agriculture in Kentucky, want greatly increased acreages of clover, alfalfa, and lespezea. Three or four times more alfalfa should be grown, they think, and clover and lespezea should be preferred to redtop, timothy, and wild grasses.

Soybeans and cowpeas would be relegated to bottom land where conditions prevent growing other crops, or to upland where crop failures call for emergency crops. It is recommended that the production of these two annuals be materially reduced.

Because alfalfa and lespezea permit excessive washing, it is suggested that orchard grass be sowed with alfalfa and redtop or orchard grass or both with lespezea. On sloping land neither lespezea nor alfalfa should be seeded alone. Bluegrass or other grasses should be seeded with hay when hay grasses tend to "play out," it is stated, thus greatly improving the resulting pastures.

In the case of lespezea alone, disk-ing in the fall and seeding to a small grain cover crop are indicated. The small grain can be grazed or cut for hay or grain and another crop of lespezea hay secured, if the season is favorable. Such a plan also protects the land over the winter.

Ben F. Kennard is a winner.—Adv.

The Courier goes to grade A homes.

Commonwealth of Kentucky Department of Highways Division of Construction NOTICE TO CONTRACTORS Letting August 27, 1937

Sealed bids will be received by the Department of Highways at its office, Frankfort, Kentucky, until 10:00 A.M. on the 27th day of August, 1937, at which time bids will be publicly opened and read for the improvement of:

MORGAN COUNTY FAS 455 C-GS. The Hazel Green-Mize Road, beginning at Mize and extending to end of state maintained road a distance of approximately 1.573 miles. Grade, drain, and low type surfacing construction.

Minimum wage rates applying on this project:
Skilled labor, 75c per hour.
Intermediate grade labor, 45c per hour.

Unskilled labor, 30c per hour. The special provisions for highway projects financed with federal aid highway funds available to the states for the fiscal years 1936, 1937, and 1938 apply on this project.

The attention of prospective bidders is called to the prequalification requirements and necessity for securing certificate of eligibility.

The attention of bidders is directed to the special provisions covering subletting or assigning the contract and to the use of domestic materials. Further information, bidding proposals, etc., will be furnished upon application to the Frankfort office. The right is reserved to reject any and all bids.

DEPARTMENT OF HIGHWAYS
Dated at Frankfort, Kentucky,

SHOULD TURN EGGS WHILE INCUBATING

Poultry Expert Cites Four Fundamental Factors.

By Dr. W. C. Thompson, Poultry Husbandman, New Jersey Experiment Station, WNU Service.

Temperature, ventilation, moisture and change of position are the four fundamental factors in obtaining good hatchings in incubators.

Changing the position of the embryos during the three weeks of development within the shell is very important. Mother hens, incubating their setting of eggs on the old-fashioned nest, usually move the eggs beneath them at least twice during the day, thus tending to equalize the exposure of each egg to the conditions of temperature, fresh air and moisture, all of which must be uniformly applied to each egg.

In the operation of the modern incubator, man can well copy this rule of the hen. Experimental evidence seems to indicate that he can go the hen one better by doubling the number of turnings during each 24-hour period.

If hatching eggs are changed in position once every six hours, optimum results, other things being equal, will generally result. It is partly a matter of preventing the sticking of the developing embryo to some one position within the shell, and partly a matter of equalizing the exposure of the respective eggs to the conditions which will bring about normal, natural embryonic growth.

Most modern incubators are provided with devices for turning eggs. It is important to be regular and consistent in this practice. It is one of those many small items which, taken collectively, spell successful hatching and the production of chicks.

Warm Soil Is Necessary

to Grow the Sweet Corn

With fading winter appetites hungering for such spring dishes as roastin' ears, home and commercial vegetable gardeners are advised that no definite date can be given for the safe planting of sweet corn, since the seed will not germinate or grow until the soil is fairly warm, according to Russell Weaver, of the department of horticulture, University of Illinois, college of agriculture.

Planting a number of varieties which vary as to time of maturity is a recommended method of obtaining a succession of roasting ears throughout the season. A good selection of white corn may be had in planting Howling Mob, Early Evergreen, Stowell's Evergreen, Narrows Grain Evergreen or Country Gentleman at the same time. A succession of yellow varieties may be obtained by using Purdue Bantam, Golden Bantam, (Bancroft), Golden Cross Bantam and Yellow or Golden Evergreen.

Yield and uniformity are much greater where hybrid seed is used. Hybrids, because of their vigor and possibly because of some inherent resistance, may be less susceptible to bacterial wilt than open-pollinated types.

Selecting New Fleck

Poultrymen who are selecting their new breeding flock, if they are planning on raising their own baby chicks this spring, says D. D. Meyer, of the Missouri station, should retain only those hens which are healthy. Hens which have laid well certainly should be included. Satisfactory future breeders are also indicated by thoroughly bleached skin in the case of yellow skinned breeds, and an old, dry coat of feathers, a sign of late molting. Pullets to be used should have large, rugged bodies, well covered with muscle and fat.

They should show early sexual maturity by well developed comb and wattles, and a large, pliable abdomen with flexible pin bones that are spread apart. A healthy flock should be the aim of all poultrymen.

Higher Farming Costs

Labor and products bought by the farm in 1937 are predicted by the Department of Agriculture to cause a sharp increase in the cost of farming. Price for feed for live stock and seed will stay high until the crop of the 1937 season replenishes the present drought-reduced supply. Farm machinery, fertilizer, and building supplies are expected to advance some in price due mostly to the increased cost of labor and material.

Keep Brood Sows Gaining

Brood sows should be kept gaining at the rate of about one pound per day up to farrowing time. Difficulty in farrowing, pig eating and poor milk flow are often traceable in inadequate rations, states a writer in Wallace's Farmer. A good ration includes about a pound of oats per sow daily, a small amount of protein supplement such as tankage or soy bean meal, free access to legume hay and enough corn to put on the desired gain.

appearing each week in this paper. It covers all the important national and world news, interpreted for you by one of the nation's best known news commentators. Read the WEEKLY NEWS REVIEW each week if you want to keep well informed on current events.

You May Have to Sell

Most persons, when they build homes for themselves, do so with the idea of creating homes in which they will live for the rest of their lives. To put it another way, they do not build with the thought of selling. But this does not mean that they should not have strongly in mind resale value, for we never know what the future has in store for us, or for our children. A home should be thought of as a family asset which, if necessary, can be turned into as much money as it cost, and possibly more.

All this has been repeatedly urged upon home builders, but it needs especial stress nowadays for these are times of much economic uncertainty and rapid change in urban districts. How to protect resale value? First, make sure that your building site has no legal encumbrances; is well drained; has good soil; has no objectionable swamps, woods or buildings near it; is conveniently located with respect to highways, railroad stations, schools, churches, stores and amusement places; and is located in a district that—by reason of its position, its landscape and its be a desirable residence district.

The Electric Kitchen Maid

Get a group of housewives together, and what do they talk about? Well—perhaps it wouldn't do to try to answer that question fully. But it is practically certain that some part of the conversation is devoted to kitchens. And why not? The kitchen is the housewife's workshop. It is only natural that she should take a keen interest in its equipment and decoration and should like to compare kitchen notes with her friends.

No part of the house has, in recent years, undergone a greater transformation than the kitchen.

The purpose of this transformation has been to lighten the labor of the kitchen and to make the room a more cheerful, pleasant place in which to work. In two ways the effort to lessen labor has progressed: first, by rearrangement of equipment to save unnecessary steps and motions; and second, by the introduction of more efficient, labor-saving equipment. Electricity has, of course, played a tremendous part in providing equipment to lighten labor.

When you plan for your new house, don't skimp on it. If a porch is worth having at all, it is worthy of being made a genuine outdoor room. Make it spacious enough to accommodate at least a table, chairs and a swing couch—a place where your family and guests can gather comfortably and where you can dine for the sake of coolness and variety.

If possible, have your porch enclosed with screens in summer and

unenclosed in winter. At least, have the porch so constructed that those who may be easily installed later. They can be obtained ready made. Also plan for awnings or Venetian blinds to keep out too much sun. If the floor is to be of wood, see that it is well laid, properly graded and painted with waterproof paint.

Many people nowadays have radiators installed on their porches so that they can use them all the year around, or at least greatly extend the period of their usefulness. When that is the plan, the floor should be double with insulation between the layers.

Maybe people don't stay at home as much as they used to, but commodious porches haven't gone out of style. In fact, it is doubtful if they ever will go out of style so long as little girls persist in growing up to marriageable ages.

Well, it is now possible to have a completely electrified kitchen in which manual labor is reduced to a fractional part of what it would be in an old-fashioned kitchen. Electric refrigerators and electric stoves; electric hot water supplies and electric dishwashers; electric garbage disposers and electric mixers; electric toasters, fans, lights, clocks, percolators, orange squeezers, grills, roasters—these and other electric appliances put power at the disposal of the housewife for practically everything she has to do in the kitchen, and enable her to use it under comfortable conditions.

The cost of an all-electric kitchen is not excessive. Too, it should be balanced against savings of food and time, and the lower cost of house lighting that results from the reduced rate given the householder with an all-electric kitchen.

HEY MOTORISTS! LISTEN!

RAILROAD DRIVERS

By THE LITTLE ENGINEER

NEXT time you are a passenger on the 20th Century, the National Limited or any other crack railroad train notice how the engineer gets you into a station and out of it and how he takes curves.

The absolutely expert train or automobile driver has in his driving one quality above all others—smoothness. His vehicle fairly floats to a stop and around curves with no jerks or shocks and no lurching of passengers from side to side. Brakes are applied so adroitly that deceleration, although swift, is continuous and comfortable. Same thing in starting. A well driven train or motor car almost oozes into action and the various increases of throttle from standing to full speed are imperceptible to riders.

In driving an automobile around curves there are three phases of handling the wheel—winding the wheel into the curve, holding it steady for as short a time as possible, then winding it out of the curve. If the winding is done suddenly and the car is hurled into and out of curves the passengers are thrown about or lurching uncomfortably. If the winding is done smoothly and progressively there is no sharp application of momentum or centrifugal force and the riders will not even know they have been around a curve at all.

It takes time to become a "smooth" driver but it's well worth while. The crack train engineer was many years becoming the artist he is.

NOTICE

All persons having claims against the estate of Levisa J. Whiteaker, deceased, will present the same to the undersigned, properly proven, at once. This 28th day of July, 1937. J. BLAINE NICKELL, Adm. of estate of Levisa J. Whiteaker.

Indeed, it is now possible to have a completely electrified kitchen in which manual labor is reduced to a fractional part of what it would be in an old-fashioned kitchen. Electric refrigerators and electric stoves; electric hot water supplies and electric dishwashers; electric garbage disposers and electric mixers; electric toasters, fans, lights, clocks, percolators, orange squeezers, grills, roasters—these and other electric appliances put power at the disposal of the housewife for practically everything she has to do in the kitchen, and enable her to use it under comfortable conditions.

The cost of an all-electric kitchen is not excessive. Too, it should be balanced against savings of food and time, and the lower cost of house lighting that results from the reduced rate given the householder with an all-electric kitchen.

Brick Graces The Home Fire

No matter how efficient the heating system the home builder nowadays installs in his new house, he is almost certain to insist that it shall also have one or more fireplaces. For nothing has "come back" more strongly than the fireplace. Neglected for a while after it ceased to be a necessity for heating, it has come to be recognized as a necessity for gracious living. Man has learned that the fireplace has an appeal to certain of his more civilized emotions that it is a stimulus to kindness and hospitality and wholesome social intercourse.

It is safe to say that a very large majority of the fireplaces that are being built into modern homes are constructed of brick. For brick is so flexible a medium, lending itself to such a wide variety of designs and surface treatment, that it is easily made to harmonize with the decorative scheme of any room.

Well, it is now possible to have a completely electrified kitchen in which manual labor is reduced to a fractional part of what it would be in an old-fashioned kitchen. Electric refrigerators and electric stoves; electric hot water supplies and electric dishwashers; electric garbage disposers and electric mixers; electric toasters, fans, lights, clocks, percolators, orange squeezers, grills, roasters—these and other electric appliances put power at the disposal of the housewife for practically everything she has to do in the kitchen, and enable her to use it under comfortable conditions.

Mr. and Mrs. W. A. Prichard of Sandy Hook came in Thursday to see the circus and spent the night with their daughter, Mrs. Kathleen Blair.

Rev. and Mrs. Harlen Murphy and grandson Cleo left yesterday for Middletown, Ohio, where they will spend the rest of this week with their children.

Miss Elizabeth Ratliff of Ashland visited over the week end her friend, Miss Helen Jean Cox. On Monday she went to Stacy Fork to visit relatives.

W. S. Cox and E. Q. McGlove, of Jackson, were in town Tuesday on business, and took Mr. Cox's mother, Mrs. Lou Cox, back with them for a visit.

Mr. and Mrs. Lester Acton of Shoals, Ind., visited a week with Mrs. Acton's brother, Earl Tredway, leaving yesterday. They ate dinner Sunday with Mr. and Mrs. Henry Perry.

Miss Jennie Phillips, Miss Jessie Baux, and Billy Hammond, of Pineville, brought Mr. and Mrs. Will Stacy home Saturday. They visited friends and relatives in the county until Tuesday, when they returned to their homes at Pineville.

Mrs. Fannie Wheeler and son Kenneth, of Flat Woods, came yesterday to spend a few days with Mrs. Wheeler's daughter, Miss Ethel Wheeler, at the home of C. P. Henry. Miss Ethel Wheeler has a sprained ankle and is not getting along very well.

Miss Margaret Johnson of Wyandotte, Michigan, accompanied her niece, Mrs. Minnie Darwin, of Middletown, Ohio, to Morgan county the week end of July 16 to visit her brother and Mrs. Darwin's father, Jo Johnson of Caney. On Saturday they with Mr. Johnson and family visited friends and relatives in West Liberty.

MORGAN COUNTY SCHOOL PAGE

(Under Auspices of Ova O. Haney, County Supt.)

RADIO IN THE RURAL SCHOOL

(Part of an article which appeared in February School Management.)

Radio programs are merely supplementary, instructional, and recreational teaching procedures and cannot ever take the place of the efficient teacher. However, if anyone will but investigate the Wisconsin WHA programs (Madison), their educational value will be self-evident. The small, poorest, and most isolated rural school can now hear speakers who are authorities in their respective fields. The radio can be the means of developing desirable ideas, ideals, and attitudes if the teacher is informed and if she understands the technique of correct listening and radio reception.

There are five essentials for the successful use of radio for educational purposes: (1) There must be a first class radio receiving equipment. (2) Pupils must be prepared for the program material. (3) If the broadcast requires active response as in singing, the teacher should then arrange for such participation. (4) After the program suitable discussion should be carried on. (5) The subject matter of the broadcast should be correlated and integrated with as many subjects of the curriculum as may be practicable.

The teacher should use special care to instruct pupils in the art and technique of effective listening. It cannot be too strongly stressed that planned listening is the only proper educational procedure. Teachers may write to the National Broadcasting System Inc. for information on this subject. There are also chapters in many recent books which the teacher will find useful. Write to Madison for the Wisconsin School of the Air and the Wisconsin College of the Air program bulletins.

Now, specifically, what can and should the rural teacher do about the radio problem?

(1) Become informed on the subject. Write to the Office of Education, Washington, D. C., for Good References on Education by Radio, 1935. It is free.

(2) Secure a first class radio receiver. By means of an entertainment, a box or basket social, PTA activities, or in other ways, sufficient funds can be obtained.

(3) Send to WHA for free bulletins containing educational programs. These are very suggestive and every teacher should have them.

(4) Have a definite and sensible plan and program of procedure. Do not permit the radio ever to interfere with the essential and necessary work of the school.

(5) As a rule, use the radio for entertainment only during the intermissions or at the time of special programs.

(6) Omit entirely every form of commercial advertising program.

(7) Carefully instruct your pupils as to types of programs so as to constantly elevate their standards and tastes. Probably at least fifty percent of radio broadcasts are not of benefit to children and are often demoralizing.

(8) Certain music broadcasts, such as those of Walter Damrosch, sent out by the NBC, are of the greatest educational value. Much of the music put out thru commercial broadcasts has an entirely different objective and is often of an undesirable character from the standpoint of education.

(9) Aside from programs of a purely recreational character, bear in mind that prepared, directed, and supervised radio listening is the only kind that counts educationally.

(10) You, the rural teacher, are of necessity personally responsible for the character of your programs and for their instructional value to your boys and girls. Here is a chance for raising moral, intellectual, and esthetic standards.

(11) Keep in mind that however you may use the radio it can and should be only a small part of the general teaching-learning program of the school.

Before attempting to use the radio in school and during school hours, the approval and cooperation of the parents, the board, and the county superintendent should be obtained. In some counties the school authorities may discourage the use of the radio and if that is the case the teacher should most certainly not go against the judgment of the superintendent and the supervisors.

Radio, rightly used, is one of a large number of agencies for improving the rural school. But the results secured will be determined by the individual teacher. "As is the teacher so is the school," in this instance as in every case of management or in teaching-learning procedure.

SUPERINTENDENT'S COLUMN

Transportation

Everyone who is interested in riding a bus to any one of the high schools along the highway is urged to notify the county superintendent's office of his intention to do so. Transportation arrangements will be made according to the survey.

NYA Aid

The National Youth Administration reports that there will be a fifty percent reduction in the student aid program for the school year 1937-38. The administration will mail application blanks to the county superintendent's office about the middle of August for the purpose of making application for student aid. Consideration will be given to relief families who live along the highway in order that they may receive enough money to pay transportation charges. The rules and regulations are that they must be between the ages of 16 and 25 and needy. In other words, they must have actually reached their sixteenth birthday before receiving this aid. Those attending the junior high schools will be eligible for aid if they are old enough.

New Seats

The board of education is making plans to have at least 600 to 800 seats made between now and December. These seats will be shipped out just as soon as completed. Teachers who are needing well rope please call at the supply store on Saturdays between 8 a.m. and 4 p.m. for rope.

Use of Schoolhouse

Many questions are brought up every year concerning the use of schoolhouses for other purposes than that of school. It has always been the policy of the board of education to encourage community activities and community life. It appears sometimes that teachers object to the use of school property for church purposes because those who conduct the church services or have charge of the building do not properly take care of the building. The teacher should turn the key over to reliable parties who will assure her that they will unlock the schoolhouse and stay and properly supervise and lock the school building after the services are over. It is the responsibility of the community to protect their school; and if they fail to do so, our property will be damaged. It is the duty of every citizen in every community to see that the rambler and loater are not permitted to enter the school buildings unlawfully.

Coal Bids

Anybody who is interested in placing bids for coal is urged to call at the office for blanks for making bids or to contact the teacher in behalf of these forms for placing bids.

Helping Teachers Report

The helping teachers have been bringing in very gratifying reports concerning the progress being made by the teachers in Morgan county. It is hoped that we will have a marked increase in enrollment for the school year 1937-38 and this increase certainly will be determined by the amount of energy expended by the teachers toward this end. We can have a banner school year if we as teachers and leaders make up our minds to do so. The board of education has purchased a generator for the purpose of showing slides and visual education to the rural schools. It will be possible now to give educational talking pictures in the rural schools for the purpose of raising money for equipment for that particular school. You will be notified in the immediate future concerning the date that the show will be given in each particular school. The net proceeds of the show will go to the PTA organization or to the teacher of the school. It is our sincere hope and desire that you will refer to your year book daily concerning our school program for this year and that you will join with us in our endeavor to launch a better school program in Morgan county.

OVA O. HANEY, Superintendent Morgan county schools.

Pie Supper at Adele

A pie supper will be given at Adele schoolhouse Saturday evening, Aug. 14, at 7:30. Everyone is invited. Good music.

Mrs. A. P. Gullett and Asa Gullett Jr. returned Tuesday from a few days' visit with Mrs. Gullett's father, who is in the Morton Infirmary in Louisville recovering nicely from an operation.

BUSINESS EDUCATION IN RURAL HIGH SCHOOL

The individual is a consumer to a far greater extent than he is a distributor. He needs to have a sense of value, to discriminate between good and bad, and to have judgment of his own; therefore he should have training in business education which will give him the knowledge that is needed by everyone to manage his own business affairs, and, should he want to enter the work as a vocation, the opportunity he has in the secondary school will help him to discover his own interests and so he may work toward an ability in the part of the work to which he is most suited. He is informed on economic and social problems of the present and receives an explanation as to how society works as a whole in one great cooperative mass. The student receives proper business attitudes and desirable thrift habits which he can apply to his duties toward the community and country. He learns how to interpret financial statements, enabling him to interpret his savings in business ventures with a more intelligent knowledge of the safety of corporations seeking investors. He receives a practical knowledge of book-keeping which enables him to keep personal records, knowledge of budgeting, the necessity of controlling expenditures so all bills can be met out of weekly, monthly, or yearly income. Emphasis upon business vocabulary is made so the student will become familiar with the terms used in newspapers and magazines and read with a better understanding of current problems.

Family budgets and family book-keeping provides him with an ability to estimate income and expenditures in advance. If the family wishes to have the necessities and conveniences required for comfort and enjoyment, it will be most apt to have them thru a budgeted income, and too, if the operations are under budgetary control, there is a greater probability that at the end of each year all bills will be paid or cash will be available for paying them, leaving a part of the income earned to be invested in income producing property. Farm budgets and farm bookkeeping will control expenditures so they will not exceed the income from which they are to be made during the year. Since a well regulated government uses budgetary control, why not businesses and families become interested in a well regulated procedure and balance budgets for each year. If not, they will be living on owned or borrowed capital instead of income, and credit becomes exhausted after a period of time. Typewriting has come to be one of the most used practices and will continue to be. With a typing knowledge, the student learns to write various forms and styles of business letters; such legal papers as leases, deeds, contracts, agreements of various kinds; and manuscripts such as minutes of meetings, annual reports, resolutions, avoiding the cost of this work by others. As well as learning to do these, he receives a valuable training thru concentration and attention on what he is doing and also emphasis upon the importance of absolute accuracy which will carry over into other work.

Since the individual is constantly in contact with others in some way, he should know of person's rights and obligations as applied to every day business transactions. How to cope with situations serious enough to require services of an attorney. To avoid errors made by many because of no knowledge of law. He learns a law vocabulary so he may better understand legal procedures.

Summary: Business education in rural high schools is of value to students of all endeavors and will be exploratory, furnishing a foundation for further study should the course be pursued for a definite vocation.—Cecil Boyers in Davis County School News

INTERESTED IN PROGRAM

Morehead, Ky., July 27, 1937

Dear Mr. Haney: I was interested in the program you had planned for your teachers and was delighted to find some of our best students on your staff. The success of any system is largely determined by its corps of teachers. You will rise or fall as you develop your ability to select teachers and to develop those in your system. Your program is most interesting. What you do there will not only mean much to you and your county, but much to M.S.T.C. We shall watch you with great interest.

My day in West Liberty was most interesting. I appreciate your hospitality.

Sincerely,
JUANITA MINISH

WILLIAMS SCHOOL NEWS

July 31.—Our school opened here July 21, with Harrison Holliday as our teacher. We have 40 now enrolled and we are enjoying our work.

We think Mr. Holliday is a fine teacher. He is teaching us to see life on a higher plane, to appreciate music and nature, to keep our bodies clean, to do our best in whatever field of life we should choose.

We have appointed certain committees to do certain things: for example, flower girls, water boys, clean-up parties, inspectors to see that the house and school yard are clean.

We have had many welcome visitors. Mr. McGuire and Mr. Reed, our helping teachers, have been here. They are fine workers. The picture man was here too, and we are looking forward to see those pictures soon.

We plan on having a pie supper here on Saturday, Aug. 14, to raise funds to make our house more beautiful inside, and we know our school board will also help us on this work, as we feel they are really interested in us.

This is our first school news; please pardon us if we have made errors.—George Prater, Randolph Bailey, Clyde Oney, Julia Isaac, Laura Neil Prater, Pauline Stephens, committee for the news.

Actually, it means continued savings for you—for its cause is a basically different operating method which has no moving, wearing parts! A tiny gas flame does all the work in this thriftyest of all refrigerators. Owners find it actually pays for itself with its economies on running cost, upkeep and food bills. Come in today and get the whole story!

RESURRECTION RIVER

SYNOPSIS

Warren Lovett, thirty-three, junior partner in the powerful Wellington, Parks & Lovett, Incorporated Mines of Chicago, which engages in questionable transactions, plans to make a secret coup in the Canadian Arctic, where a few years before a rich but inaccessible mining field has been discovered on Resurrection river, which flows into Dynamite Bay. Patricia, high spirited and beautiful daughter of crusty old Jasper Wellington, who is engaged to Warren, decides to accompany him. Over her father's objections, she agrees to take her. They go by plane. Patricia meets "Poleon," a French Canadian prospector, who tells her there are only 300 prospectors in the field and that because of the difficulties they are hanging on by a thread. Pat is disturbed when Warren will not disclose what his secret mission is. She visits the prospectors' camp and is distressed to see how discouraged they are. She meets Sam Honeywell, a friend of Poleon's. Moved by the plight of Bill Fornier, a prospector, who, though fatally ill, struggles to hold his claim, Pat decides to help him. Informed by Louis Choucaim, head of a family of half-breed retainers of the company, about Pat's befriending the prospectors, Warren tries to dissuade her. He tells her that Craig Tarlton, with whom she had once been in love, is now deputy mining inspector for the Resurrection river area.

CHAPTER III—Continued

Poleon was brewing tea over an open fire in front of his tent. Patricia accepted a cup, chatted casually a few moments, then led around to her topic.

"Poleon, I hear that your mining inspector is a man called Craig Tarlton. Do you know him?"

"Oo, oo. We been close friends long time, Craig and me."

"I know him too, Poleon. He used to be connected with my father's company."

"My goodness, dat so? W'en was dat?"

"Five—no, six years ago. He was one of our geologists, the youngest and most brilliant man on our staff. In fact he headed our Winnipeg department. I met him at one of our house parties when he came down to Chicago; and after that I—I saw him—once or twice. How long has he been here?"

"Four year, come fall."

Patricia shut her eyes in blinding despair. Four years of buried exile, four long years at this Arctic outpost—it meant that the world had beaten him.

She could have sobbed at the contrast between Craig's early genius and his obscurity now. That monumental treatise of his on the Archaeozoic rocks of upper Huron—it had led to the discovery of the earliest known forms of life on earth; and he had written it at the age of twenty-three! And that radio "divining rod" which he had perfected while on her father's staff—the patent leases on it had brought in more than a million dollars for Wellington, Parks & Lovett since the time he contemptuously flung his invention at them and resigned and vanished.

"Poleon, is he around here now? Where does he live?"

Poleon gestured across Resurrection. "He live over dere beyon' de camp. Right now I tink he doctoring Bill Fornier at Bill's tent."

He went on to tell her that Craig had taken Bill Fornier under his special care and was looking out for him. It was Craig who had staked those "fine-dandy" silver claims for Bill, because Bill didn't know much about rocks.

How like Craig, Patricia thought, to mother this stricken prospector. How proud he was on the surface, with the pride of genius; but how warm of heart beneath, especially for the under-dogs.

"Take me over there, Poleon," she asked, reckless of consequences. "I want to—Craig and I were—I'd like to see him again. Won't you?"

"Sure, sure," Poleon agreed. "You being ole friend, I bet he lak to see you, too."

They floated Poleon's patched canoe, skinned across Resurrection, landed on the north bank, and walked back through the drogue of trees behind the prospectors' camp.

Poleon pointed at a large cabin up ahead, nestling in a little hollow and half-hidden by minaret pines. "Dat's hees cabane dere, Mees Pat."

Patricia stopped. "You needn't go on with me, Poleon," she bade. She wanted to see Craig alone, not knowing what might break between him and her. "Go back to Sam Honeywell's tent and wait for me, won't you, please?"

When Poleon was out of sight, she stepped behind a rock for a dab of powder and a hasty pat at her hair. Then she went on toward the cabin, with slow hesitant footsteps. What would he think of her? And she of him? Most likely, she told herself, this meeting would be awfully flat. There was nothing quite so dead as a dead romance.

The little hollow was bare of timber except at the upper end where the cabin stood. Carpeted with reindeer moss, it was a riot of flower colors. Under the perpetual sun, blue saxifrage and lupine and Arctic poppies had sprung swiftly into blossom, seizing their few short weeks of summer to grow, bloom and seed.

Halfway up the hollow Patricia came to a granite boulder with the words "Arctic Circle" chiseled into it. A little thrill went through her. Suddenly reminded, she glanced at her wrist watch. Twelve o'clock, midnight—and the sun shining goldenly as ever on the poppies and blue saxifrage! A strange region, this Arctic land. "As certain as

By William Byron Mowery

day and night" was a common saying throughout the world; but that axiom did not hold in this country. Day and night, those two infallibles, were not infallible here.

Stepping gingerly across the Arctic Circle, she went on to the cabin. No one answered her knock. She rapped again. No answer. The door was open, so she stepped upon the threshold of Craig's home and looked inside.

The cabin was a one-room affair, but big and airy and light. Patricia saw at the sweet smell of sawed pine logs, of which the cabin was built, and the rather pleasant odor of much pipe-smoking. In one corner stood a table holding a microscope in glass cage, a delicate scales in another cage, a small assay outfit, an array of chemicals; and on the floor beside the table there was a full box of dynamite.

A wing-broken thrush, with its wing neatly splinted and bandaged, was hopping along the window ledge, pecking at bread crumbs which Craig had put there for it.

But it was Craig's books that struck Patricia's eye. Walls, mantels, shelves and every conceivable niche overflowed with books.

With a strange quivering inside of her she turned to his pipe rack and looked hurriedly at the dozen old meerschaums, searching for the pipe which she had given him that time at God's lake. It was not there.

Through the south window she glimpsed a man coming up the little hollow, a tall rangy figure carrying a satchel like a doctor's. With a gasp she fled for the door. But she was too late—from the woods edge the man looked up and saw her in his doorway.

Intensely mortified that Craig had caught her intruding, she mustered up what courage she could, walked down toward the granite rock, and defiantly waited.

In the weird slant light of the midnight sun Craig Tarlton came toward her. Often Patricia had fancied meeting him again, but never had she imagined that it would be in so far a land and so strange a place as this poppy hollow in the Arctic.

Beside the boulder that marked the Arctic Circle, Craig confronted her. One long glance at his face, and all Patricia's fear that he was a man defeated went crashing to the ground. No man with those penetrating eyes, with that air of personal might, could possibly be defeated. He was still Craig Tarlton, steadier and more mature than when she had known him, but otherwise not greatly changed.

His outdoor life had made him hard and virile; and his face was weathered dark by summer sun and winter blizzard. As usual in the old time, he was bareheaded. The black waves of his hair awoke a storm of memories in Patricia.

A canoe, moon-silvered water, the night sounds of the wilderness, her fingers caressing those ripples of his hair. The very clothes he wore were like those he had worn at God's lake. Everything about him brought back poignant recollections of that God's lake idyll.

"How d'you do?" Craig said coldly, as though to a stranger.

Patricia fought down her trembling emotions. "I—I'm sorry I intruded," she stammered. "I wanted a drink of water, and no one answered my knock."

"Or were you 'slumming,' as you were this afternoon in the camp?" Craig asked.

The ease with which he spiked her lie made Patricia angry—at him and at herself. She hated people who could read her, and Craig seemed to be reading her through and through.

"Yes, I was—I was slumming!" she snapped. "I wanted to see whether you'd 'gone native' or not."

"And you, you conch!" "I concluded that you hadn't."

"Thanks," Craig said dryly. She waited for him to say something more. To invite her into his cabin. But he did not. It seemed he did not even care to stay and chat with her, for he kept the satchel in his hand instead of putting it down. There was no warmth or friendliness whatsoever in his attitude; no remembrance at all of those twenty days at God's lake.

As Patricia met his eyes she was suffused with shame, anger and humiliation. How could he stand there and look at her so coldly, as though he and she had never seen each other before? Surely this meeting had brought that hauntingly beautiful interlude back to him. Surely he must be thinking and remembering that he had been her first lover.

She strove to make him talk to her. "I've always wanted to ask you, Craig, why you resigned from our staff so suddenly. I was thunderstruck when I heard about it."

She confessed candidly. "I came back from Italy. I wrote you. I apologized for my picking the lot quarrel of ours; but you were gone, no one knew where."

"I resigned because I didn't like the deal that your father was putting across on those Flin-Flon operating companies, Miss Wellington."

Patricia noticed the "Miss." Was he rebuking her for using his personal name?

"Yes, I knew about your run-in

with dad, Craig; but why did that keep you from writing to me?" "I saw no occasion for writing you," he returned bluntly. "You, the haughty heiress, ordered me to forget about God's lake—and I did."

With her girl's pride smarting, Patricia flung back at him, "Well, so did I forget it!" She was seized with an impulse to cut him cold and leave. But she could not force herself to turn away. Instead she made a last despairing bid for a token of warmth from him. "Craig, we don't have to be enemies, do we, because we once were—were friends?" It was on her lips to tell him how bitterly she had regretted that quarrel and how she had hoped for a year afterward; but pride kept her from confessing that. "I've often thought about you, Craig, and tried to find out something about you. What have you been doing since you left Winnipeg that time?" Mr. Parkes told me something about a metallurgy process which you invented and which made you a great deal of money. You went out west, didn't you?"

Craig answered with a laconic briefness. "Yes, west. Vancouver. That was a zinc-separation process. Yes, the syndicated patent rights brought in about a million and a half, I believe."

Patricia wondered what had become of that million and a half. His cabin showed that he had no money at all now except his meager salary. Why had he flung away a second fortune, to the last cent? What had happened to him out there on the West Coast?

Just then she did not pause over these questions. "By the way, Miss Wellington," he asked her, "why did you give

"How D'you Do?" Craig Said Coldly.

Bill Fornier that \$500 this afternoon?"

"Why—why because I wanted to?"

"Why did you want to?" he insisted.

"Because—well—" Patricia groped for words to explain her irrational act. She herself did not fully understand the strange feelings which had gripped and shaken her to the depths that afternoon in Bill Fornier's tent. "I don't know why I did, unless—well, I saw him faint while he was working, and then Poleon told me about his sickness and his family and the fight he's putting up; and I—I just had to help him a little."

"In return for that money, Fornier wrote you out a paper giving you part interest in his claims, did he not?"

"That was merely—" He refused to take money outright, it hurt his pride; so I let him make that arrangement with me. He believes I meant it."

"Do I understand that you were just playing Lady Bountiful to that? That your \$500 were, ah, angel money?"

"What do you mean?" Patricia demanded. In Craig's sharp questions she felt some lurking suspicion of her act. What under heaven did he suspect her of?

Craig said: "Anyone who's connected with the Wellington company or who's of the Wellington blood—I simply can't imagine 'em being bountiful to anybody or having a speck of human sympathy for any person, especially for a poor illiterate rock-hog like Bill Fornier. What did you do with the partnership agreement that Bill wrote you?"

"I've got it with me. Here," She fumbled in the back of her vanity case. "But what're you driving at? I don't get you."

"Well then, get this," he said, with a sternness that awed her. "Bill Fornier is facing death; those claims are all he's got on earth, all that stands between his family and complete destitution. For anybody to euche him out of them or edge them away from him—I can't think of a more heartless and mercenary thing to do."

The reason behind Craig's sharp questioning burst upon Patricia like a bombshell.

"You mean," she gasped, "that

I—I'm trying to steal those claims of his?" "I don't know whether you are or not. You may not be. On the other hand, Warren Lovett may have put you up to this job. For Bill's sake I'm taking no chances. If you're on the level, how about tearing up Bill's partnership agreement? Here and now."

Patricia went white in the face with furious anger. She had never been so insulted in all her life. "Why you, you scurrious hound!" she stormed at him. "If I were a man, I'd—I'd fight you, I'd hammer you till you—you . . . You're a liar! You're a low-down—low-down—You take back what you said! Say it's a lie! She drew back her hand and gave him a stinging slap on the cheek.

"That's what I think of you and your lying suspicions!" She tore Bill Fornier's paper to bits and flung the pieces in his face. "Don't you ever speak to me again! Don't you ever even look at me again. I hate you!" Patricia ran down the little hollow fairly blinded by her furious tears. She felt that she had never hated any person on earth so violently as she hated Craig Tarlton. It was not this Bill Fornier matter, not Craig's unjust and cruel suspicion about it, that stung the worst. It was his stony coldness. For him God's lake was dead; she was dead. But he wasn't dead for her. This meeting had brought her an aching, almost terrifying resurrection of that God's lake idyll.

CHAPTER IV

In the event-filled days that followed, Patricia made up her mind half a dozen times to flee from Dynamite Bay and return home. "Get away from Craig! Three thousand miles away!"—that was what her good sense warned her.

But she found it utterly impossible to tear herself free. The hands of a sick man, Bill Fornier, held her there. The hands of 300 men, those homeless and disorganized prospectors, were reaching out to hold her there. And then, above everything else, Craig.

At Bill's tent and in the main camp she met Craig frequently. They had no more quarrels—his curd nod and "how d'you do" gave no opportunity; but every encounter was a bad emotional upset for her. She told herself, and with a good deal of truth, that she hated Craig Tarlton and wished that their paths had never crossed again; yet she contrived to meet him almost daily, and she could no more stop thinking about him than she could stop breathing.

For a few days at first she put her pride in her pocket and made little overtures of friendliness; but Craig ignored them, ignored her. "Why," she asked herself, in tears at his rebuffs, "does he single me out? Little by little she pieced together the answer to that. He disliked her father intensely; disliked what he called the "jungle code" of the company; considered her a shallow, "snooty," aristocratic creature who had wasted the most precious years of her life in a butterfly existence.

This opinion of his had so much truth to it that it stung.

In a hazy way she began to understand the story of Craig's four Arctic years. His exile was altogether a voluntary one. In the city country—DeCarrie told her this—he could have been freelancing as a high-priced consultant or could have headed the staff of some big mining company. But he wanted nothing of that. Of his own personal fortunes he was entirely careless, with the carelessness of a man who had "made his millions." He disliked her father intensely; disliked what he called the "jungle code" of the company; considered her a shallow, "snooty," aristocratic creature who had wasted the most precious years of her life in a butterfly existence.

These are some of the more common symptoms or warnings of biliousness or so-called "torpid liver," so prevalent in hot climates. Don't neglect them. Take Calomel, the improved calomel compound tablets that give you the effects of calomel and salts, combined. You will be delighted with the prompt relief they afford. Trial package ten cents, family pkg. twenty-five cents. At drug stores.

Sew, Sew, Sew-Your-Own

do a few summery things in a summery frock such as the one at the right. In dimity or swiss it will make you more youthful and charming than many a more ornate style (and after all the girl of his dreams must be young and charming). A good suggestion might be to cut a carbon copy, while you're about it, in sheer wool with long sleeves. Then there'll be nothing to worry about when a cool evening happens along.

The Patterns.

Pattern 1288 is designed for sizes 14-20 (32 to 42 bust). Size 16 requires 3½ yards of 39-inch material.

Pattern 1326 is designed for sizes 12-20 (30 to 38 bust). Size 14 requires 4 yards of 39-inch material.

Pattern 1228 is designed for sizes 11-19 (29 to 37 bust). Size 13 requires 4½ yards of 35 or 39-inch material. With long sleeves 4¾ yards are required.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

Black Leaf 40 KILL'S LICE Cap-Brush Applicator makes BLACK LEAF 40 GO WORK FASTER! JUST A DASH IN FEATHERS... OR SPREAD ON ROOSTS

Hot Weather is Here— Beware of Biliousness!

Have you ever noticed that in very hot weather your organs of digestion and elimination seem to become torpid or lazy? Your food sours, forms gas, causes belching, heartburn, and a feeling of restlessness and irritability. Perhaps you may have sick headache, nausea and dizziness or blind spells on suddenly rising. Your tongue may be coated, your complexion bilious and your bowel actions sluggish or insufficient.

These are some of the more common symptoms or warnings of biliousness or so-called "torpid liver," so prevalent in hot climates. Don't neglect them. Take Calomel, the improved calomel compound tablets that give you the effects of calomel and salts, combined. You will be delighted with the prompt relief they afford. Trial package ten cents, family pkg. twenty-five cents. At drug stores.

Next Best If you can't choose your lot in life, try to make it comfortable.

Late Regret A hundred years of regret will not pay a farthing of debt.

for money!"

Household Hints

By BETTY WELLS

"I'M HAVING the time of my life," announced Helen B., whose husband just lost a lot of money in a fire that destroyed his place of business. "Because Frank and I are back where we started out, and in spite of all the ups and downs we feel like honeymooners again."

"Of course, I'm doing my own work because we can't afford a maid. It's the first time I've really worked in this kitchen."

"Till I really rolled up my sleeves and went to work here, there were more things wrong with this kitchen! I wish I'd known before how much time and energy it wasted . . . after all it's as good economy to save the maid steps as to save myself."

"To begin with the sink was much too low so that an average person had to lean over to use it."

"Then I found that the cabinet where we kept silver, dishes and cutlery and mixing bowls was across the room from everything

We Feel Like Honeymooners Again.

else, while the pots and pans and groceries were on the other side of the room near the stove. The refrigerator was adjacent to the sink. "I have had the sink raised but I can't move it or the refrigerator or the stove to bring the three in reaching distance. I could get cupboards around the sink-refrigerator unit though. I had all the space below the sink made into cupboards, then turned the corner with another cabinet that ran around the adjacent wall. Here I made room for all cutlery, silver, dishes, mixing bowls and groceries and most of the pots and pans. I left the frying pans and the like alongside of the stove but kept all those that would have to be mixed in or fixed ahead in the cupboard by the sink where the groceries were."

"Then I bought a kitchen table on wheels, that I could pull from my working unit to the stove. This works fine, and with a couple of high stools to sit on my kitchen is as handy as you please."

"Frank and I did all the work—he's a pretty good carpenter, and I did the painting. All these changes called for a new color scheme so we decided on Swedish blue for the kitchen walls, and yellow ceilings, yellow wash curtains and some yellow pottery on a shelf just for show."

Even at a Picnic.

She's the kind of a lady who can be a duchess on any occasion, even at a picnic. And her house is like that, too, gracious and poised and yet unpretentious with an effortless ease.

We were driving along her street one hot, hot afternoon recently, and on an impulse decided to stop in.

And there she was looking fresh as a daisy in a pink linen dress and her hair just out from a wet comb. The house was pleasantly orderly (but not nasty-nice—after all she has a rambunctious pair of children who take care of that). "Just a second," she said when she had seated us in a breeze, "I'll be back with tea."

She flew out to the kitchen and before we'd fanned our fan a dozen

She Can Be a Duchess Even at a Picnic.

fans, there she was with a tray of ice tea and a plate of oatmeal cookies.

As she sat down before that tray and served the tea, we thought what a thoroughly successful woman she was. Not famous. Not even rich. But doing a perfectly splendid job of making a pleasant home for her family, and that's no sinecure.

That living room seemed like a haven on a hot day. Very pale aquamarine walls, a mulberry broadloom rug that somehow didn't seem hot because it made such a shady background for the slip covers of very flowery chintz on an aquamarine ground. The curtains were plain aquamarine chintz lined with cream and tied back with heavy mulberry cord.

There was a room that would seem like a cool and tranquil retreat in summer and like a hospitable room of friendly warmth in winter, so versatile and satisfying was it.

BERRIES SOLVE DESSERT RIDDLE

Shortcake, Cobbler, Pie, Pudding Popular in Summer.

By EDITH M. BARBER

BERRY season is welcome for many reasons but for none more than that it practically solves the summer dessert question. We do not mind how many times these berries repeat themselves, plain, with cream, in shortcakes, cobbles, rolls, cottage puddings, in plain fruit pies or in cream custard pies.

For a cobbler, the fruit is always baked with the dough which is the same as that used for shortcake. Put the berries or sliced fruit in a well buttered baking pan, sprinkle with sugar and cover with a soft dough. Bake in a moderately hot oven, 400 degrees Fahrenheit. This same dough is used for a roll. It is made stiff enough to roll into an oblong piece, which is sprinkled with fruit and sugar and rolled tightly. This is baked also in a moderately hot oven. A custard sauce, a hard sauce, or cream is served with this. For "puddings" the fruit and sugar are put into greased custard cups. The dough is put over this and they are then steamed thirty to forty minutes.

This same dough is used for apple, peach or pear dumplings which may be either steamed or baked. At our house we always had to have some each way to satisfy the preferences of the family.

A favorite pudding is a sponge cake with whipped cream and strawberries. This may be made into a more elaborate dessert by putting ice cream between the layers of cake, covering with crushed berries and garnishing with whipped cream. Meringue with ice cream and strawberries or other fruit sauce is a dessert which fits a party meal nicely. Sometimes you can buy them ready to use but they are not difficult to make.

Meringues.

4 egg whites
1 1/4 cups powdered sugar, or
1 cup granulated sugar
1 teaspoon vanilla

Beat egg whites very stiff, add the sugar gradually. Beat until the mixture will hold its shape. Stir in flavoring. Drop by tablespoonfuls onto a wet board, covered with glazed paper. Bake about thirty minutes in a very slow oven, 250 degrees Fahrenheit.

Fresh Fruit Pudding.

6 slices buttered bread
1 quart raspberries
1 cup sugar
Whipped cream

Crush berries with sugar, if fresh, or crush canned fruit. Trim crust from bread and line a greased bowl with the slices, cutting corners so that the pieces meet. Pour in the berries, cover with bread, set plate on top of this, so that it is pressed down with the weight, and put in the refrigerator twenty-four hours. Turn out of mold, garnish with whipped cream and serve.

Preserved Cherries.

4 pounds cherries
4 pounds sugar

Wash cherries, remove the stems and stones. Cover with sugar and let stand two hours. Set on stove and bring slowly to a boil, stirring occasionally. Cook until the cherries are tender. Fill hot jars and seal. A few pits cooked with the fruit improves the flavor.

Note.—Currants and huckleberries may be preserved in the same way.

Medley Marmalade.

2 quarts raspberries
2 quarts strawberries
2 quarts currants
4 1/2 pounds sugar

Mash the berries, add the sugar and boil about forty-five minutes until thick, stirring occasionally. Pack and seal in clean, hot jars.

Apricot Blossom.

3 parts gin
2 parts orange juice
1 part pineapple juice
1 part apricot brandy
Lemon juice to taste
Cracked ice

Mix all ingredients and shake with ice until outside of cocktail shaker is frosted.

Cherry-Pineapple Jam.

4 quarts pitted cherries
2 cups crushed pineapple
Sugar

Combine fruits and add an equal weight of sugar. Heat slowly to boiling. Simmer three-quarter hour. Pour into platters. Cover with glass and set in the sun until the desired consistency is reached. Pour into hot jars and seal.

Cucumber Sandwiches.

Spread bread before slicing with softened butter. Slice and cut into rounds. Arrange sliced cucumbers which have been crisped in salt water for one-half hour, on the rounds. Spread with mayonnaise to which a little onion juice or horseradish has been added. Cover with other spread rounds of bread.

Coconut Cup Custard.

2 eggs
4 tablespoons sugar
2 cups milk
1 cup coconut
1 teaspoon vanilla extract

Beat eggs very lightly. Beat in sugar. Add milk slowly. Add coconut and flavoring. Pour into cups which have been greased lightly with butter. Stand cups in a pan of water and bake in a slow oven (300 degrees Fahrenheit) one hour.

Just a Little Smile

NEEDED LUBRICATION

Stubblefield—So you and your neighbors are not on speaking terms any longer?

Sneeberg—No, all diplomatic relations are suspended.

Stubblefield—How did it come about?

Sneeberg—My neighbor sent me a can of oil and told me to use it on my lawnmower when I started to cut the grass at six in the morning.

Stubblefield—And what did you do about that?

Sneeberg—I sent it back and told him to use some of it on his wife's voice box when she started to sing at 11 in the night.—Pathfinder Magazine.

KNOWS HER PERFUMES

"Her atmosphere is always so sweet."

"Yes; she has good taste in choosing her scents."

Unconvincing Object Lesson

"You are encouraging your boy Josh to leave home?"

"Yep," replied Farmer Cornstossel. "I reckon that 'ud be fur the best."

"Can't you persuade him to work?"

"No. I do my best to persuade him that hard work and economy is the makin' of a young man. Then he jes' looks at me in a way that makes me feel like I wasn't nothin' in his eyes but a bad example."

Schooled

"This book of Universal Knowledge will tell you everything you ought to know," declared the agent at the door.

"Don't need it," growled Mr. Grouch. "My wife tells me all that—and a lot more besides."—Cincinnati Enquirer.

Time!

A visitor to the nut house was trying to find out the right time. He had to catch a train . . . His watch had stopped and he hurried into the office . . . No one was there but an inmate . . . The visitor looked at the wall clock.

"Is that clock right?" he asked. "Don't be silly," the nut replied in disgust. "If that clock was right, d'ya think it would be here?"—New York Journal.

SHAKE THE ASHES

"I'm afraid the fires of my husband's affections are burning low, my dear."

"You're not using the right fuel, my dear."

Pen-Point?

Literary Man (at the ball)—Are you familiar with John Masfield? Lowbrow Flapper—What'd you mean? I'm never familiar with anyone.—Yale University Record.

Remembers Her History

Mother—Now Janey, be a nice girl and give your little brother part of your apple.

Janey—Not me, mother. That was what my Sunday School teacher said Eve did. And you know how she's been criticized ever since.

Depends on Point of View

Chinaman—Can you tell me where the depot is?
Stranger—Are you lost?
Chinaman—No, me here. Depot lost.

Early Education

"Do you enjoy going to school?"
"Very much," replied the bright little boy. "Of course, the school isn't very entertaining. But the ride there and back is always pleasant."

Perfect Score

Boy—Whoopie!
Dad—Why so happy?
Boy—I made 100 in school.
Dad—What subject?
Boy—Arithmetic 30, Spelling 50, and Geography 20.

Ask Me? Another

A Quiz With Answers Offering Information on Various Subjects

1. How often does the United States gain one in population?
2. Was Sir William Blackstone successful as a lawyer?
3. Do baseball or football players receive more injuries?
4. How fast must an object travel to escape from the gravitational attraction of the earth?
5. Does an elephant eat as much as a mouse in proportion to its size?
6. Was the United States Supreme court ever closed for a period more than one year?

Answers

1. There is one birth in the United States every 14 seconds, one death every 22 seconds, one immigrant every 15 minutes, and one emigrant every 14 1/2 minutes, making a net gain in population of one person every 35 seconds.
2. Sir William Blackstone (1723-

1780) whose fame as England's greatest jurist is based on his "Commentaries," actually possessed only the vaguest possible grasp of the elementary conceptions of law and was considered a failure as a lawyer, jurist and parliamentarian, according to Collier's Weekly.

3. Baseball players receive more minor injuries, but fewer permanent injuries and fatalities.

4. It must have a speed of 6.95 miles per second.

5. If an elephant ate the same amount proportionally as a mouse it would consume 10 tons of food daily. Actually it eats only about 100 pounds.

6. Rushed through congress in 1801, a measure directing that the Supreme court should meet only once a year, on the second Monday of February, closed the court for 14 months, until February, 1803.

Household Questions

Washing Handkerchiefs—Discolored handkerchiefs will regain their whiteness if a few drops of peroxide of hydrogen are added to the last rinsing water.

For Lighter Potatoes.—A small amount of milk added to the water in which potatoes are boiled will make them lighter and fluffier when mashed.

Oilcloth for Shelves.—Oilcloth, if white, can be used to line the shelves and walls of dark cupboards. It will lighten them considerably. If placed on the last step of a dark cellar staircase, it will make the descent easier.

Cracker Sandwiches—12 cream crackers, 3 bananas, ounces cream cheese, pinch of salt, and a dash of pepper. Beat the cream cheese, pepper and salt together and spread half the crackers with this mixture. Slice bananas thinly and spread over cheese mixture, and cover each with a cracker.

8 EXTRA POUNDS OF RUBBER

Another Reason Why FIRESTONE GIVES YOU SO MUCH Extra Value at No Extra Cost

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS—eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because under the tread are two extra layers of Gum-Dipped cords.

YOU GET EXTRA PROTECTION AGAINST SKIDDING—because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE because of the extra tough, long-wearing tread.

Before leaving on your vacation trip, join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Standard Tires—today's top tire value. See your nearby Firestone Dealer or Firestone Auto Supply & Service Store Now!

HEARD AROUND THE CORNER

PAYTON

Oscar Bolin, who is working up the Kentucky river, came home to visit his family the week end.

Jerry Stacy visited his son, Chester, here, one night last week.

Mrs. Ina Walter and children Ernold and Chris Fern, and Alla Franzer Walter, of Madison, visited Miles Henry Stacy on Sunday.

Elvin Perkins and two daughters, of Tallage, visited relatives in this section last week.

Rebecca and Katherine Peyton, of Nickell, visited their aunt, Mrs. Jas. Deborah, the week end.

Miss Lena Perkins and Ralph and Ronald Perkins are visiting their aunt, Margaret Moore, at Maysville this week. BILL

CUTTIE

Aug. 2.—Belle Cottle of Paintsville visited her grandparents, Mr. and Mrs. Ike Cottle, last week.

Dr. and Mrs. Frank E. Zindel and Ed Hanes, of Philadelphia, were here Saturday.

Mrs. Tom Barton visited relatives in Ashland last week.

Mr. and Mrs. Ernest Cottle were in Huntington on Friday and Saturday.

General Butler had business at Stacy Park on Monday.

Mrs. T. J. Elam has been sick the past week.

Mr. and Mrs. C. C. Elam and three children and Mr. and Mrs. Homer Elam and two children, of West Liberty, and Will Cox, Mr. and Mrs. Goebel Burton and son Johnny, Miss Beulah Hammond, and Mrs. J. V. Henry visited W. T. Easterling and Mrs. Maud Easterling on Sunday.

Miss Vic Cottle, who had been employed at the home of Clayton Hammond the past three weeks, has gone home. SWEETHEART

MAYTOWN

July 26.—Mrs. Dock Hatten and Mrs. Otis Picklesimer, of Middletown, Ohio, spent a few days recently with their parents, Mr. and Mrs. Wiley Wilson, here.

Ethel and Mabel Prater are visiting relatives at Cincinnati, Ohio.

Rose and Pearl Hatten, of Middletown, Ohio, are visiting their grandparents, Mr. and Mrs. R. T. Hatten and Mr. and Mrs. Wiley Wilson, here.

Mr. and Mrs. Kelly Whitt of Ohio are visiting Mr. Whitt's sister, Mrs. Buel Picklesimer, here.

Mrs. Clell Gilley went to Mt. Sterling Monday for medical treatment.

Mr. and Mrs. Edgar Bailey of Ashland are visiting Mrs. Bailey's father, Buel Picklesimer.

Ova Hatten, who was working at Middletown, Ohio, is at home now. Charles Williams, who had been to Middletown, Ohio, in search of work, has returned home.

R. T. Hatten, who has been confined to his bed for the past year, is slowly improving.

J. M. Toliver, who has had a stroke of paralysis, is no better. JACK

CROCKETT

July 30.—Isaac Ferguson and Edna Ferguson were married last Friday night. The bride is the daughter of Mr. and Mrs. Clay Ferguson and the groom is the son of Lee Ferguson. Several youngsters attended the infare at his home and the night was enjoyed by all. Let's join in wishing them a happy life together.

Mrs. D. C. Lewis of Lenox spent from Monday to Wednesday with her daughter, Mrs. Andy Skaggs, at Crockett.

Mr. and Mrs. Victor Ferguson and son Elmo were Wednesday night guests of Mr. and Mrs. W. A. Ferguson at Moon.

Lee Ferguson and children Newt, Arnold, and Nola are visiting friends and relatives in Portsmouth, Ohio, this week.

Emerson Brown, who had been in New Boston, Ohio, the past week, has returned home.

Mr. and Mrs. Ephraim Fyfe are visiting relatives at Crockett.

Emerson Barker of Crockett has typhoid fever.

Raymond Benton of Caney was in Crockett last Friday.

Pauline and Arlie Cox, of this place, who have just recovered from measles, visited this week with their grandmother, Mrs. Laura Conley, at Terryville.

Willie Skaggs of this place spent Wednesday night with his grandmother, Mrs. D. C. Lewis, at Lenox. Mr. and Mrs. Isaac Ferguson had a bean stringing Wednesday night. Several persons were present. After the beans were strung the rest of the night was spent in playing games and dancing.

CANNEL CITY

Daisy Elam of Illinois is visiting her grandparents, Mr. and Mrs. Jim Prater.

Sara Ferguson and Ruth Lacy, of Insko, were Saturday night guests of Mr. and Mrs. J. E. Benton.

Charles Briscoe, Dorsie Benton, Robert Davis, and Ernest Sebastian returned home Saturday night after spending a month in Indiana.

Mrs. B. Dunigan and daughter Edna and Mrs. Finley Lykins and children Betty and Jack returned home Saturday after spending a few days at Jeff.

Oma and Aileen Zornes and Daisy and Bertha Lacy spent Sunday at the new Natural Bridge. CUTIE

HELECHAWA

Rev. and Mrs. Yancy Moore have returned to their home in Middletown, Ohio. Rev. Moore held a ten days' meeting at Rosefork.

Mr. and Mrs. Shelby Wilson spent Saturday night with their niece, Lydia Hall, and Sunday with their granddaughter, Betty McQuinn.

Ernest Robinson has moved into the house with Mrs. Allison Rose.

Mr. and Mrs. M. F. Collins of Akron, Ohio, have returned home after a two weeks' vacation with Mrs. Collins' parents, Mr. and Mrs. D. F. Easterling.

Miss Alma Dykes is visiting her parents, Mr. and Mrs. Jas. Dykes, here.

Bert and Golden Moore were in Paintsville on business Thursday.

Mr. and Mrs. Scott Rose of Jackson spent the week end with Mrs. Rose's parents, Mr. and Mrs. F. P. Wilson.

Miss Geraldine Nickell of Ashland is visiting her cousins, Ann Katherine and Melrose Gullett.

Willie Cox of Index was here Sunday visiting relatives.

Clarence McQuinn and D. F. Easterling attended court at Campton on Monday.

Hurrah for the Courier and its many readers! Come on, reporters, with all the news. NANCY

REXVILLE

July 26.—Lee Caskey, who has been living in California for several years, is visiting relatives and friends here.

Mr. and Mrs. Carlton Dye of Orlando, Florida, are guests of Mrs. Dye's grandfather, John Brewer, and of Mrs. Ella Stamper, this week.

Mr. and Mrs. R. D. Davidson and daughter Marjorie and son Elwood Elam were Saturday night guests of Mr. and Mrs. J. H. Risner and family.

School is progressing nicely with Woodford Cecil of Mize as teacher.

Mr. and Mrs. Earl Wilson and daughter Bernice, of Salem, and Mr. and Mrs. Herbert Allen and daughter Annette, of Hazel Green, were guests Sunday of Mrs. Lucy Oldfield.

Mr. and Mrs. Clarence Corder are the proud parents of a girl—Ruth Esther—born July 20.

Nova Stamper, who had been visiting her brother, John Stamper, and family, of Foster, Ohio, came home Wednesday.

Mrs. Susan Wells and her son, Ollie Murphy, of Exeter, Calif., are spending the summer here at their farm.

Mr. and Mrs. Walter May and son Patrick spent the week end with Mr. and Mrs. Less May of Flat Woods.

Glenn Brewer, who had been working at Grand Rapids, Michigan, came home this week.

BUSKIRK

Mr. and Mrs. H. B. Chaney had as dinner guests Sunday Mr. and Mrs. Ervin Conley and family, of Greear, Mr. and Mrs. Jack Smith and family, Mrs. Minnie Wilson, and Mrs. Hal Smith, all of Demund, and Mr. and Mrs. Fred Chaney and N. P. Chaney, of Buskirk.

Andy Clinton Long and family, of Pikeville, spent Sunday at Salem with friends and relatives.

Mrs. N. P. Chaney is at Mt. Sterling this week with her son, R. L. Chaney, taking medical treatment.

Mrs. Jerry Stacy visited her daughter, Mrs. L. B. Trimble, and family, here, thru the week end.

Mr. and Mrs. Ollie Nickell and Mr. and Mrs. John Cundiff visited Mr. and Mrs. Elmer Little at Irvine thru the week end.

Elwood Chaney visited his sister, Mrs. Ervin Conley, and family, at Greear, the past week.

Mrs. E. C. Trimble is visiting her daughter, Mrs. Sam Lumpkins, and family, at Grassy Creek.

George Waden Trimble of Phoenix, Arizona, is visiting Mrs. E. C. Trimble and family.

Mrs. Clarence Osborn of Osborn, Ohio, who had been visiting her parents, Mr. and Mrs. James Chaney, has returned home.

Mrs. Ernest Nickell of Mt. Sterling is visiting Mr. and Mrs. O. B. Nickell. Misses Lena and Rena Gose, of Beattyville, who had been visiting relatives here, have returned home.

Mr. and Mrs. Roy Chaney and Mr. and Mrs. Bill Byrd visited their parents, Mr. and Mrs. James Tipton, Sunday. TOOTS

FLORRESS

July 27.—Mr. and Mrs. Nick Elam and daughters Minnie Nell and Geraldine, of West Liberty, visited Mr. and Mrs. L. C. Elam on Sunday.

Jim Bob Conley had quite a surprise the other night when he went out to see what was wrong in the hen house. He threw the light on and a large blacksnake had a chicken and had coiled around it and killed it. He killed the snake.

Mr. and Mrs. W. T. Elam and little son Roy Sterling went to Pomeroyton last Sunday to see Mrs. Elam's father, W. C. Nickell, who had been real sick but was some better when they arrived.

Mrs. Clay Elam and daughter Virginia, of Ohio, are visiting Mrs. Phoebe Little and doing some canning.

Miss Bonnie France of Matthew and Arlie Nickell of Florress were married one day last week.

Jerry Patton of Chicago is visiting his uncle, John Patton, here.

SILVERHILL

July 31.—Miss Pauline Hamilton and Miss Grace Wright visited friends and relatives at Relief last week end and attended communion service at Paint Valley on Sunday.

Miss Ruth Hamilton is employed at the home of Mr. and Mrs. William Wright at Relief.

Dow Wright had business in West Liberty on Thursday.

Our school is getting along fine with Charlie Williams as teacher.

Materials Used in Incense

While there are slight differences in the ingredients for the molded powder incense, several formulas give benzoin, gum olibanum, styrax, balsam and powdered bark of cascarilla.

Tunkins' Idea of Patriotism

Jud Tunkins says that patriotism is to some extent the art of knowing when to get out and give three cheers and when to sit quiet and listen.

What Makes Bee Hum

The sound of a bumble or honey bee is made by the rapid vibration of the bee's wings.

NOTICE: COAL BIDS

All those desiring to place bids for furnishing coal to any and all schools of the county, please call at the county superintendent's office for forms 6-B for placing of bids. Sealed bids will be received until August 30. All envelopes containing bids must be marked on outside, "Coal Bid." Please state the name of school and price per bushel.

Rules and Regulations concerning bidding for coal.

The Morgan county board of education has prepared certain rules and regulations which bidders must follow in placing their bids for coal. Any bidder desiring to bid on coal must secure form 6-B from the superintendent's office. This form includes time that bid must be placed and time coal delivery is to be made. Also this form must be certified by two other reliable citizens who will be responsible that said bidder will deliver said coal within said time. Sealed bids will be received and bidder must mark on the envelope when mailed to the superintendent's office "Coal Bid." Sometimes they mail bids in and we don't know whether they are business letters or not. A record of all the bids placed by all the bidders of the county will be placed on a big cardboard so that anyone who desires to know just how much each one bid will be able to find out. Each bidder must secure the approval of the teacher in the school in which delivery is being made as to the quality and quantity of coal before receiving check. Forms for placing bids may be had by calling at the county superintendent's office, or contact your teacher for said forms.

NOTICE

All persons having claims against the estate of Kelly Baldwin Williams, deceased, will please present the same properly proven to the undersigned administratrix of the estate at once. All persons who are indebted to said estate will see the undersigned or Lynn B. Wells, attorney for said estate, and make satisfactory arrangements about the payment of said debts.

This 20th day of July, 1937.
MRS. ELIZABETH WILLIAMS,
Administratrix of the estate of
Kelly Baldwin Williams.
